Laosa, 1980 Public Policy Digest of the National Planning Association, 1944 **Black Education** Willy DeMarcell Smith, Eva Wells Chunn, This highly focused collection of papers commissioned by the National Urban League offers a candid and courageous portrait of black education in transition This is a period as the editors note in their opening remarks that is characterized by a huge shift from federal responsibility for minority education to authority and autonomy being lodged at the local government level Further many institutions that once worked well no longer do so Many ambitious social programs and policies that originally promised much have been abandoned have failed or just faded away Pivotal to these times and changes is the question of the extent to which the American educational system has been or still is capable of being responsive to incorporating and even instigating equity and excellence for black Americans This volume asks the hard questions is the educational system geared up for the maintenance of anything other than mainstream values can it adapt to minority youth requirements when why and how do educational policies of majorities and minorities clash How are priorities to be established on the basis of wealth or need The legal statutes and administrative enforcement of equal educational opportunities are explored in depth and with a deep compassion for all parties involved **Resources in Education**, 1996 *Parent and Community Involvement in Education* Barry Rutherford, Beckie Anderson, Shelley Billig, 1997 This study focused on parent family and community involvement in middle grade education It addressed three reform themes in the area of middle grade school family and community partnerships 1 What are the larger and local environments within which parent family and community involvement operate How do these contextual factors influence those programs 2 What are the roles that parents families and community and business members assume in the education of their children How are those roles facilitated What key elements are specific to these areas and 3 What are the effects of promising programs on parents students schools and the community How are these effects assessed or determined Findings show that challenges can create opportunities for family involvement strong relationships form the core of family and community involvement responsibilities and decision making need to be shared among all participants sustained family and community involvement depends on active advocacy by leaders and active

partnerships require a system of support to sustain them Implications for policymakers include a focus on success for all students as the core of policy for education reform whereby school family and community partnerships are supported Appendix A contains references and Appendix B contains a bibliography of current products RT     The Encyclopaedia Britannica James Louis Garvin, Franklin Henry Hooper, Warren E.
