**Parenting Under Pressure** Timothy A. Booth,Wendy Booth,1994 Gives an insight into what it means to be a parent with learning difficulties By looking at the common threads in their lives the authors aim to produce personal accounts that are true to the experience of parents themselves

*Parents with Intellectual Disabilities* Gwynnyth Llewellyn,Rannveig Traustadottir,David McConnell,Hanna Bjorg Sigurjonsdott,2010-02-18 The first international cross disciplinary book to explore and understand the lives of parents with intellectual disabilities their children and the systems and services they encounter Presents a unique pan disciplinary overview of this growing field of study Offers a human rights approach to disability and family life Informed by the newly adopted UN Convention on the Rights of Persons with Disabilities 2006 Provides comprehensive research based knowledge from leading figures in the field of intellectual disability

*Growing up with Parents who have Learning Difficulties* Tim Booth,Wendy Booth,2005-08-10 Growing up with Parents who have Learning Difficulties uses a life story approach to present new evidence about how children from such families manage the transition to adulthood and about the longer term outcomes of such an upbringing It offers a view of parental competence as a social attribute rather than an individual skill assessing the implications for institutional policies and practices The authors address the notion of children having to parent their disabled parents and argue for a shift in emphasis from protecting children to supporting families This innovative book provides a fresh approach to a subject rife with prejudice and challenges us to think again about many taken for granted ideas about the process of parenting and the needs of children It also demonstrates the power of narrative research and its capacity for bringing alive people's experience in a way that enables us to better understand their lives

**Parenting and Disability** Olsen, Richard,Clarke, Harriet,2003-04-16 This book reports on the first substantial UK study of parenting disability and mental health which examines the views of parents and children in 75 families It provides a comprehensive review of relevant policy issues explores the barriers to full participation in parenting that disabled parents face examines the complex ways in which broader social issues interact with disability and advocates measures to support disabled parents and their families

**Already Doing It** Michael Gill,2015-03-27 Why is the sexuality of people with intellectual disabilities often deemed risky or inappropriate by teachers parents support staff medical professionals judges and the media Should sexual citizenship depend on IQ Confronting such questions head on Already Doing It exposes the sexual ableism that denies the reality of individuals who despite the restrictions they face actively make decisions about their sexual lives Tracing the history of efforts in the United States to limit the sexual freedoms of such persons using methods such as forced sterilization invasive birth control and gender segregated living arrangements Michael Gill demonstrates that these widespread practices

stemmed from dominant views of disabled sexuality not least the notion that intellectually disabled women are excessively sexual and fertile while their male counterparts are sexually predatory Analyzing legal discourses sex education materials and news stories going back to the 1970s he shows for example that the intense focus on stranger danger in sex education for intellectually disabled individuals disregards their ability to independently choose activities and sexual partners including nonheterosexual ones who are frequently treated with heightened suspicion He also examines ethical issues surrounding masturbation training that aims to regulate individuals sexual lives challenges the perception that those whose sexuality is controlled or rejected should not reproduce and proposes recognition of the right to become parents for adults with intellectual disabilities A powerfully argued call for sexual and reproductive justice for people with intellectual disabilities Already Doing It urges a shift away from the compulsion to manage deviance better known today as harm reduction because the right to pleasure and intellectual disability are not mutually exclusive In so doing it represents a vital new contribution to the ongoing debate over who in the United States should be allowed to have sex reproduce marry and raise children

**The Abuse of Women Within Childcare Work** Kieran O'Hagan,Karola Dillenburger,1995 Childcare professionals working in childcare agencies predominantly work with women clients This book identifies and analyses the multiple abuses of women within childcare work The authors rely on the abundant evidence of such abuse in research childcare literature child abuse enquiry reports and on their combined forty years experience of childcare practice Although many abuses occur at the point of contact between childcare professionals and women clients the origins and causes of the abuses often lie elsewhere in childcare law for example or in childcare training in developmental theories organizational structure or in too hastily formulated policies and procedures Each of these and many more potentially abusive factors are explored so too are the dilemmas they pose for many professionals who are fully aware of that abusive potential The authors stress that uncomplicated and not too challenging changes can be made to ensure that the abuse of women within childcare systems can be drastically curtailed

**The Disability Reader** Tom Shakespeare,1998 This collection of articles explores the intellectual implications of a disability equality perspective Leading social scientists draw on current theory and research and offer an outstanding overview of contemporary debates **Support for Families** Peter Burke,Katy Cigno,1996 Despite many studies of families where there is a child with a learning disability it is clear that such children do not from the beginning of their life enjoy the same opportunities as others inequality is also experienced by their carers almost always parents in their day to day lives This study through the views of carers considers the formal and informal networks used by families The book is in two parts Part one reviews the literature and introduces the research Part two gives basic qualitative and quantitative information about the subjects of the study includes detailed care studies and examines the kind of support received This provides a picture of the resources families use and helps identify gaps in the support that is available The book concludes with the arguments for a holistic approach to services for families and looks at what remains to be done to meet their needs **Child Protection** Chris Beckett,2003 This book offers an introduction to child protection work *International Journal of Child & Family Welfare ,1997*
