A Parent-Partner Status for American Family Law Merle H. Weiner, 2015-09-17 Despite the fact that becoming a parent is a pivotal event the birth or adoption of a child has little significance for parents legal relationship to each other Instead the law relies upon marriage domestic partnerships and contracts to set the parameters of parents legal relationship With over forty percent of American children born to unwed mothers and consistently high rates of divorce this book argues that the law s current approach to regulating parental relationships is outdated A new legal and social structure is needed to guide parents so they act as supportive partners and to deter uncommitted couples from having children This book is the first of its kind to propose a new parent partner status within family law Included are a detailed discussion of the benefits of the status as well as specific recommendations for legal obligations **Parental Belief Systems** Irving E. Sigel, Ann V.

McGillicuddy-DeLisi, Jacqueline J Goodnow, 2014-02-25 Research on the topic of parent beliefs or parent cognition has increased tremendously since the original publication of this volume in 1985 For this revised second edition the editors sought to reflect some of the new directions that research on parent cognition has taken By offering a greater variety of topics it gives evidence of the intellectual concerns that now engage researchers in the field and testifies to the expanding scope of their interests Although a unique collection because it reflects the diversity that exists among major researchers in the field it evinces a common theme that the ideas parents have regarding their children and themselves as parents have an impact on their actions This emphasis on parents ideas shifts the focus on sources of family influence to ideas or beliefs as determinants of family interactions The implication of this way of thinking for practitioners is that it suggests the shift to ideas and thoughts from behavior and attitudes *WDF: The Naked Truth* Timna Augustine, 2017-12-18 This is a book about my bipolar biracial 20 year marriage It reveals the reality of a modern day love story that starts from the beginning which takes you on an unbelievable unexpected ride through the ups and downs of a marriage The message of the book is that things can happen in one s relationship but we must ask the question we stay or leave based on circumstances Nevertheless sometimes we say What Da Fck through this roller coaster we call life **Reports of Civil and Criminal Cases Decided**
