

Parents Children

Thomas Griffiths

Parents Children:

Maternal & Child Health Nursing Adele Pillitteri, 2010 Growing research shows that many children from immigrant and refugee families are not doing well in school due in part to linguistic and cultural disadvantages Teaching dual language learners requires cultural sensitivity an understanding of language acquisition and intentional teaching strategies Combining research and techniques this resource helps early childhood educators support dual language learners as they develop the skills necessary for school readiness and success

[Child-to-Parent Violence: Challenges and Perspectives in the Current Society](#) Lourdes Contreras, M. Carmen Cano-Lozano, Francisco Javier Rodríguez-Díaz, Melanie Simmons, 2021-08-25

[The Parents We Mean to be](#) Rick Weissbourd, 2009 Through the author's own original field research a surprising picture of the moral development of children emerges to confirm that parents intense focus on their children's happiness is turning many children into self-involved fragile conformists who feel ashamed when they fail to measure up

Curriculum Planning for Parents and Children Sharon M. Strom, 2004

Parents' Beliefs About Children Scott A. Miller, 2019-11-29 One of the most important questions in psychology is how best to nurture children's development Parents' child rearing practices are a major contributor to how their children develop and parents' beliefs about children are a major contributor to how they treat their children This book synthesizes a large and diverse literature on what parents believe about children in general and their own children in particular Its scope is broad encompassing beliefs directed to numerous aspects of children's development in both the cognitive and social realms that span the age periods from birth through adolescence For each topic this book seeks to ask four crucial questions What is the nature of parents' beliefs What are the origins of parents' beliefs How do parents' beliefs relate to parents' behavior And how do parents' beliefs relate to children's development These questions tie into longstanding theoretical issues in psychology they are central to our understanding of both parenting practices and children's development and they speak to some of the most important pragmatic issues for which psychology can provide answers *Parents' Beliefs About Children* brings together a vast body of scholarship in a new way which makes the material accessible to both researchers in the field of child development and a more general readership

Safe Kids, Smart Parents Rebecca Bailey, Elizabeth Bailey, 2013-06-11 This practical guide to keeping children safe at any age empowers both parents and kids to be alert follow a safety list and to critically assess situations to take the right steps to reduce risks

Parent-child Relations Jerry J. Bigner, Clara Gerhardt, 2014 This is the eBook of the printed book and may not include any media website access codes or print supplements that may come packaged with the bound book Now in the Ninth Edition Jerry Bigner's *Parent Child Relations* the classic resource for child development professionals and parents themselves has undergone a thorough revision anchored by the vision of the late Dr Bigner and executed by new co-author Clara Gerhardt Maintaining its fundamental structure and unique approach the text uses family systems and systemic family development theory as a framework to explore how parent-child re

Parents, Children, and Adolescents Anne Marie

Ambert, 2020-12-17 *Parents Children and Adolescents* presents an integrative perspective of the parent child relationship within several contexts. You can expand your empirical and theoretical knowledge of the parent child relationship and child development through the book's unusually holistic theoretical perspective that integrates three main frameworks: interactional theories on parents children and development, contextual ecological models, and behavior genetics. This insightful book's empirical scope is broader than that of most books in that it considers the parent child relationship throughout the life course as well as within a great variety of contexts including interactions with sibling and peers at school in their neighborhoods and with professionals. You'll gain immeasurable knowledge about parents child rearing styles and how they are affected by environmental variables, the interaction between parents and children and between their personalities, behavior genetics as one of the explanatory frameworks for the role of genetics and environment, negative child outcomes, emotional problems, conduct disorders and delinquency, poverty and other stressors affecting parents and children, problematic abusive emotionally disturbed alcoholic parents, siblings and peers as contexts for the parent child dyad, the effect of the school system on the family with a focus on minority families, family structure, divorce, remarriage and families headed by never married mothers, adolescent mothers and their own mothers, the psychogenetic limitations on parental influence and cultural roadblocks to parental moral authority. Complete with an Instructor's Manual, *Parents Children and Adolescents* is ideal for advanced undergraduate and graduate classes in family studies and human development, sociology of the family, interdisciplinary developmental psychology and social work classes that need a thorough perspective on the parent child relationship. Professionals and scholars in these fields seeking an interdisciplinary framework as well as research suggestions and incisive critiques of traditional perspectives will also find this innovative book a valuable addition to their reading lists.
