**Urban Maps** Richard Brook, Nick Dunn, 2016-12-05 This book concerns the city and the devices that define the urban environment by their presence representation or interpretation The texts offer an interdisciplinary discourse and

critique of the complex systems artifacts interventions and evidences that can inform our understanding of urban territories on surfaces in the margins or within voids The diverse media of arts practices as well as commercial branding are used to explore narratives that reveal latent characteristics of urban situations that conventional architectural inquiry is unable to do The subjects covered are presented within a wider framework of urban theory into which are embedded case study examples that outline the practices processes and interpretations of each theme The chapters provide a contemporary reading of urban socio cultural conditions using mapping as a lens to explore and communicate the social phenomena and lived experiences of the dynamic and temporal city Mapping is developed as a form of critical instrumentality to expose record and contribute to the understanding of the singular essences of space place and networks by thematic cognitive and experiential modes of investigation

**Focus on Minotaure** Musée Rath,1987

**The Parallax View** Slavoj Zizek,2009-02-13 In i ek s long awaited magnum opus he theorizes the parallax gap in the ontological the scientific and the political and rehabilitates dialectical materialism The Parallax View is Slavoj i ek s most substantial theoretical work to appear in many years i ek himself describes it as his magnum opus Parallax can be defined as the apparent displacement of an object caused by a change in observational position i ek is interested in the parallax gap separating two points between which no synthesis or mediation is possible linked by an impossible short circuit of levels that can never meet From this consideration of parallax i ek begins a rehabilitation of dialectical materialism Modes of parallax can be seen in different domains of today s theory from the wave particle duality in quantum physics to the parallax of the unconscious in Freudian psychoanalysis between interpretations of the formation of the unconscious and theories of drives In The Parallax View i ek with his usual astonishing erudition focuses on three main modes of parallax the ontological difference the ultimate parallax that conditions our very access to reality the scientific parallax the irreducible gap between the phenomenal experience of reality and its scientific explanation which reaches its apogee in today s brain sciences according to which nobody is home in the skull just stacks of brain meat a condition i ek calls the unbearable lightness of being no one and the political parallax the social antagonism that allows for no common ground Between his discussions of these three modes i ek offers interludes that deal with more specific topics including an ethical act in a novel by Henry James and anti anti Semitism The Parallax View not only expands i ek s Lacanian Hegelian approach to new domains notably cognitive brain sciences but also provides the systematic exposition of the conceptual framework that underlies his entire work Philosophical and theological analysis detailed readings of literature cinema and music coexist with lively anecdotes and obscene jokes

*Nation* Russell Howze, 2008 In tribute to this widely popular form of internationally appreciated street art Stencil Nation contains the most extensive documentation and up to date history of stencil art and how to tips from the artists With dynamically illustrated perspectives from the niches of the art form Stencil Nation provides ample entertainment and information for anyone even slightly interested in this art genre It also represents the work of lesser known urban scenes such as Romania Poland and Israel and builds upon previously published works Born in the Streets Fondation Cartier, 2009 Beginning in July 2009 the Fondation Cartier will be hosting an exhibition that celebrates street art The show and the accompanying catalogue first reexamine the birth and evolution of the graffiti movement in New York in the early 1970s and feature documentation from that time including press clips and photographs of tags and graffiti by artists such as Lee Seen and Lady Pink among others The book then explores the explosion of creativity worldwide that followed the New York movement especially in Paris which became the nerve center for European graffiti in the 1980s It juxtaposes the different aesthetics of cities like New York Paris London Berlin and Sao Paulo highlighting styles specific to each city and the diverse practices of contemporary artists who began in the graffiti movement There are interviews with artists who influenced the development of street art and with others such as gallery owners who were involved in its evolution

**Brassai Graffiti** Brassai, 2002-05-03 Brassai became interested in the marginal art form of graffiti in the 1930s seeing it as a form of outsider art that could open the door to new forms of artistic expression His atmospheric photographs capture the essence of this unfettered creation Stark contrasts of black and white alternate with softer shades of grey that meld into one another smoothing the harsh gouges typical of graffiti Several of these photographs first appeared in the Surrealist review *Minotaure* others were first published in France and Germany in 1960 in a work entitled *Graffiti* which accompanied an exhibition that visited New York London Milan Baden Baden Frankfurt Hannover and Paris The approach was hugely influential both for the Surrealists and in the domain of Outsider Art Accompanying the photographs are selections from previously unpublished writings including extracts from Brassai's own notebooks in which he noted the presence of elements of graffiti on the walls of Paris that he intended to photograph The book also contains an interview with Picasso on the subject of graffiti as an art form This first English language version of this classic title is a beautifully produced edition of what is undoubtedly a seminal work in the history of modern photography
