## **Paris Et Catherine De Medicis:**

**Catherine de' Medici** R J Knecht, 2014-07-16 Catherine de Medici 1519 89 was the wife of one king of France and the mother of three more the last sorry representatives of the Valois who had ruled France since 1328 She herself is of preeminent importance to French history and one of the most controversial of all historical figures Despised until she was powerful enough to be hated she was in her own lifetime and since the subject of a Black Legend that has made her a favourite subject of historical novelists most notably Alexandre Dumas whose Reine Margot has recently had new currency on film Yet there is no recent biography of her in English This new study by a leading scholar of Renaissance France is a major event Catherine a neglected and insignificant member of the Florentine Medici entered French history in 1533 when she married the son of Francis I for short lived political reasons her uncle was pope Clement VII who died the following year Now of no diplomatic value Catherine was treated with contempt at the French court even after her husband's accession as Henry II in 1547 Even so she gave him ten children before he was killed in a tournament in 1559 She was left with three young boys who succeeded to the throne as Francis II 1559 60 Charles IX 1560 74 and Henry III 1574 89 As regent and queen mother a woman and with no natural power base of her own she faced impossible odds France was accelerating into chaos with political faction at court and religious conflict throughout the land As the country disintegrated Catherine's overriding concern was for the interests of her children She was tireless in her efforts to protect her sons inheritance and to settle her daughters in advantageous marriages But France needed more Catherine herself was both peace loving and in an age of frenzied religious hatred unbigoted She tried to use the Huguenots to counterbalance the growing power of the ultra Catholic Guises but extremism on all sides frustrated her She was drawn into the violence Her name is ineradicably associated with its culmination the Massacre of St Bartholomew 24 August 1572 when thousands of Huguenots were slaughtered in Paris and elsewhere To this day no one knows for certain whether Catherine instigated the massacre or not but here Robert Knecht explores the probabilities in a notably level headed fashion His book is a gripping narrative in its own right It offers both a lucid exposition of immensely complex events with their profound impact on the future of France and also a convincing portrait of its enigmatic central character In going behind the familiar Black Legend Professor Knecht does not make the mistake of whitewashing Catherine but he shows how intractable was her world and how shifty or intransigent the people with whom she had to deal For all her flaws she emerges as a more sympathetic and in her pragmatism more modern figure than most of her leading contemporaries **Catherine de Médicis** Paul Van Dyke, 1922 **The Identities of**

**Catherine de' Medici** Susan Broomhall, 2021-07-05 In *The Identities of Catherine de Medici* Susan Broomhall provides an innovative analysis of the representational strategies that constructed Catherine de Medici and sought to explain her behaviour and motivations Through her detailed exploration of the identities that the queen her allies supporters and clients sought to project and how contemporaries responded to them Broomhall establishes a new vision of this important sixteenth

century protagonist a clearer understanding of the dialogic and dynamic nature of identity construction and reception and its consequences for Catherine de Medici's legacy, memory and historiography

**Catherine de Medici** Leonie Frieda, 2006-03-14 Poisoner, despot, necromancer: the dark legend of Catherine de Medici is centuries old. In this critically hailed biography, Leonie Frieda reclaims the story of this unjustly maligned queen to reveal a skilled ruler battling extraordinary political and personal odds from a troubled childhood in Florence to her marriage to Henry, son of King Francis I of France, from her transformation of French culture to her fight to protect her throne and her sons' birthright. Based on thousands of private letters, it is a remarkable account of one of the most influential women ever to wear a crown.

**Catherine de Medicis Letter** Queen Catherine de Médicis (consort of Henry II, King of France), 1571. Includes a letter written on 8 January 1571 by Catherine de Medicis to Monsieur de Fourquevaux, member of the King's privy council and ambassador to Spain. A private letter detailing Catherine's views of relations with Spain. The French queen discussed the upcoming marriage in Portugal, negotiations at Torres, and the treatment of her granddaughters by the new Spanish queen, Anna of Austria. She notes the receipt of a gift from the Spanish king and concludes with assurances of personal affection and goodwill. Collection also includes one 4x5 negative of a photograph of Catherine de Medicis.

*Princes and Princely Culture* Martin Gosman, A. Alasdair A. MacDonald, Alasdair James Macdonald, Arie Johan Vanderjagt, 2003-10-01. The essays in this volume discuss princely courts north of the Alps and Pyrenees between 1450-1650 as focal points for products of medieval and renaissance culture such as literature, music, political ideology, social and governmental structures, the fine arts, and devotional practice.

*Mademoiselle de Montpensier* Sophie Maríñez, 2017-08-28. *Mademoiselle de Montpensier* examines questions of self-construction in the works of Anne Marie Louise d'Orléans, Duchesse de Montpensier (1627-1693), the wealthiest unmarried woman in Europe at the time, a prominent women's advocate, author of memoirs, letters, and novels, and the commissioner of four châteaux and other buildings throughout France, including Saint-Fargeau, Champigny-sur-Marne, and Choisy-le-Roi. An NEH-funded project, this study explores the interplay between writing and the symbolic import of châteaux to examine Montpensier's strategies to establish herself as a woman with autonomy and power in early modern France.

**Princes and Princely Culture 1450-1650, Volume 1**, 2003-10-15. This book contains thirteen essays on European princes and princely culture between 1450 and 1650. Many products of medieval and renaissance culture—literature, music, political ideology, social and governmental structures, the fine arts, and even forms of devotional practice—found their best expression in the context of the courts of greater and lesser princes. This volume, the first of two concentrating on the late Middle Ages and the Early Modern Era, has essays on selected courts north of the Alps and the Pyrenees: the court of Burgundy under the Valois dukes; that of France under Catherine de Medici and of Henry IV; that of Scotland under James III, IV, V, VI; and of Mary, Queen of Scots; that of Margaret of Austria at Mechelen; of Scandinavia; of Heidelberg under Frederick the Victorious; and Philip the Upright; and that of Maximilian I.
