**L'intégration du droit international et communautaire dans l'ordre juridique national** Pierre Michel Eisemann, 2023-09-14 Just how International and European Community Law is being integrated into domestic legal systems is as yet not too well known To gain a clear overview of this grey area requires more than knowing about the various constitutional rules What is also needed is a study of little known administrative practices and the attitudes of the national courts where case law is often as complex

as it is diverse When all these elements are taken into account the general picture that emerges is a much more subtle one transcending the classical positions based on the theories of monism and dualism To grasp this reality and go beyond preconceived ideas it seemed indispensable to make a thorough analysis of national practices To this end the International Law Centre of the University of Paris XIII Cedin Paris XIII took the initiative in 1990 of setting up a network of European international lawyers to work on the theme International norms and legal barriers This book presents the outcome of the network's programme The research was organized on the basis of a single questionnaire which provided the outline of a common workplan to which each of the contributors has adhered Detailed comparisons of national practices can now be made relating in particular to international treaties acts of international organisations and of the European Communities and to unwritten international law This is the first time that such a comprehensive and detailed survey has been made of all thirteen countries Reading the national reports one after the other provides complete information on domestic practices reading them crosswise gives a direct comparison between the different countries on specific issues

**The European Neighbourhood Policy and the Democratic Values of the EU** Nariné Ghazaryan,2014-10-01 This book offers a legal analysis of the European Neighbourhood Policy the ENP as it applies to developing relations with the EU's neighbours It explores the legal aspects of this policy including ENP competence matters institutional arrangements and substantive policy issues using international relations theory as the starting point in defining the EU's role as a political actor The book focuses on the adequacy of the ENP legal framework for transposing the EU's democratic values and upholding its political image In this connection the book also features an analysis of EU democratic values as they are intended to be understood by its neighbours The relevant legal framework of this policy and its implementation in the states of the South Caucasus Georgia Armenia and Azerbaijan is evaluated revealing the effects of the ENP in their democratic processes and the shortfalls of the ENP conditionality
