Philological Proofs of the Original Unity and Recent Origin of the Human Race Arthur James Johnes, 2020-03-16

In the groundbreaking book *Philological Proofs of the Original Unity and Recent Origin of the Human Race* by Arthur James Johnes the author delves into the linguistic evidence supporting the theory of the original unity and recent origin of the human race. Johnes meticulously examines the connections between various languages and traces their roots back to a common source, providing compelling arguments for the shared ancestry of all humanity. Written in a scholarly and comprehensive style, this book is a must-read for anyone interested in the intersection of linguistics, anthropology, and evolutionary theory. Johnes' thorough research and detailed analysis make this work a valuable contribution to the study of human origins and linguistic evolution. His compelling arguments challenge conventional beliefs and invite readers to reconsider their understanding of human diversity and unity. *Philological Proofs* is a thought-provoking and enlightening read that will expand your knowledge and perspective on the origins of the human race.

Waite, 1881 *The Persian Revival* Talinn Grigor, 2021-07-08 One of the most heated scholarly controversies of the early twentieth century, the Orient or Rome debate, turned on whether art historians should trace the origin of all Western and especially Gothic architecture to Roman ingenuity or to the Indo-Germanic *Geist*. Focusing on the discourses around this debate, Talinn Grigor considers the Persian Revival movement in light of imperial strategies of power and identity in British India and in Qajar/Pahlavi Iran. The Persian Revival examines Europe's discovery of ancient Iran, first in literature and then in art history. Tracing Western visual discourse about ancient Iran from 1699 on, Grigor parses the invention and use of a revivalist architectural style from the Afsharid and Zand successors to the Safavid throne and the rise of the Parsi industrialists as cosmopolitan subjects of British India. Drawing on a wide range of Persian revival narratives bound to architectural history, Grigor foregrounds the complexities and magnitude of artistic appropriations of Western art history in order to grapple with colonial ambivalence and imperial aspirations. She argues that while Western imperialism was instrumental in shaping high art as mercantile bourgeois ethos, it was also a project that destabilized the hegemony of a Eurocentric historiography of taste. An important reconsideration of the Persian Revival, this book will be of vital interest to art and architectural historians and intellectual historians, particularly those working in the areas of international modernism, Iranian studies, and historiography. *Persian Portraits* F.
