## **Participating In Worship History Theory And Practice:**

*Participating in Worship* Craig Douglas Erickson, 1989-01-01 Transcending the common distinctions between high church low church and formal informal this book argues for a balance in the patterns and various levels of worship participation giving all Christians a fresh look at worship as a whole Craig Erickson discusses the elements of participation in detail setting historical and theological insights within a comprehensive theory of liturgical participation He enables students ministers and congregations to understand the historical significance of the elements of worship and offers useful suggestions for strengthening Christian worship

**Liturgical Theology** Simon Chan, 2009-09-20 Bad worship produces bad theology and bad theology produces an unhealthy church In *Liturgical Theology* Simon Chan issues a call to evangelicals to develop a mature theology of the church an ecclesiology that is grounded in the church's identity as a worshipping community Evangelicals he argues are confused about the meaning and purpose of the church in part because they have an inadequate understanding of Christian worship As a remedy for this ailment Chan presents a coherent theology of the church that pays particular attention to the liturgical practices that have constituted Christian worship throughout the centuries With a seasoned eye and steady hand he guides the reader through these practices and unpacks their significance for theology spirituality and the renewal of evangelicalism in the postmodern era Chan's proposal advances the conversation among evangelicals regarding the relationship between theology and worship In contrast to some theologians who have tended to emphasize a sociological analysis Chan argues that we need to consider what is essential to the church's theological identity Drawing on the larger Christian tradition Chan argues that we discover that identity primarily in the structure and significance of Christian worship

**Visual Arts in the Worshipping Church** DeBoer, 2016 Although numerous studies have examined biblical and theological rationales for using the visual arts in worship this book by Lisa J DeBoer fills in a piece of the picture missing so far the social dimensions of both our churches and the various art worlds represented in our congregations The first part of the book looks at Orthodoxy Catholicism and Protestantism in turn including case studies of specific congregations showing how each tradition's use of the visual arts reveals an underlying ecclesiology DeBoer then focuses on six themes that emerge when Orthodox Catholic and Protestant uses of the visual arts are examined together the arts as expressions of the church's local and universal character the meanings attributed to particular styles of art for the church the role of the arts in enculturating the gospel and more DeBoer's *Visual Arts in the Worshipping Church* will focus and deepen the thinking of pastors worship leaders artists students and laypeople regarding what the arts might do in the midst of their congregations

**Christ-Centered Worship** Bryan Chapell, 2009-10 The bestselling author of *Christ Centered Preaching* provides a useful and accessible resource that traces the history of Christian worship and calls contemporary congregations to gospel faithfulness
