Voice and Inequality Carew Boulding,Claudio A. Holzner,2021 Understanding who participates in politics and in which kinds of activities is central to understanding how democracies work This book offers the first large scale empirical analysis of political participation in 18 Latin American countries with a focus on understanding the political behavior of the region's poorest citizens Poor people in Latin America vote protest and contact government officials at surprisingly high levels approaching or exceeding levels of activism of individuals with significantly more resources and schooling To explain this puzzling finding we argue that key institutions of democracy including civil society political parties and competitive party systems are especially important for understanding the activism of poorer citizens and as a result have profound effects on inequalities in political participation

*Elections in Latin America* Kevin Pallister,2024-02-27 Even as several Latin American countries have regressed to authoritarian rule in the first two decades of the twenty first century elections remain permanent and vital features of the region's political life Kevin Pallister provides an accessible overview of elections throughout Latin America including formal electoral institutions informal practices and the behavior of voters and candidates Through a wide ranging synthesis of scholarly literature and sources it offers a descriptive and analytical look at how elections in the region work from the legal rules of the game to the final counting of the votes and provides an even handed discussion of its complexities such as electoral integrity gender quotas the role of social media corruption in campaign finance and how elections can be instruments of both democracy and autocracy This comprehensive narrative from Mexico to Argentina is complemented with illustrative examples case studies and data By understanding how elections in Latin America work as flawed but indispensable institutions of democracy students and other readers will enhance their knowledge of contemporary Latin American politics and the important process of democratization in the region
