ViolinMind Hans Jørgen Jensen, Minna Rose Chung, Grigory Kalinovsky, 2019-09-12 *ViolinMind* is a pedagogical method book that focuses on intonation. It is a transcription for the violin of *CelloMind* published in 2017 by Ovation Press Ltd. The co-authors of *ViolinMind* are Hans Jørgen Jensen Professor of Cello at the Bienen School of Music at Northwestern University and Grigory Kalinovsky Professor of Music Violin at Indiana University Jacobs School of Music. The mystery of intonation is dissected by defining the scientific principles behind it and providing easy intuitive examples of the three main kinds of intonation systems used today Equal Temperament Just and Pythagorean Playing with exquisite intonation has mostly been reserved for those who possess a strong intuitive sense of pitch and harmonic color however *ViolinMind* breaks down this barrier using a highly detailed systematic approach making the process of acquiring a sophisticated sense of intonation similar to any other technical skill. Chapters in the book explore in great detail topics such as the harmonic overtone series the scientific principles behind Cents the syntonic comma the just scales the Pythagorean comma the Pythagorean semitones advanced sympathetic vibrations Tartini tones and double stops studies in tritones All chapters in the book include numerous practical samples and listening exercises that bridge the gap between the theory and its application. The chapters on intonation conclude with practical examples from the following repertoire intonation performance practice in the Bach Sonatas and Partitas for Violin Solo BWV 1001 1006 and intonation performance practice with piano. The appendices in the book provide detailed explanations about the Helmholtz intonation chart the harmonic series just intonation the Schisma as well as an illustration of two violin fingerboards from two method books from the 18th century showing pitch distribution for just intonation and Pythagorean intonation respectively

Bach: Three Sonatas and Three Partitas for Solo Violin

Johann Sebastian Bach, Lawrence Golan, 2010-10-07 Dr Lawrence Golan's edition of Bach's masterpieces for solo violin combines the authenticity and accuracy of a Scholarly Urtext Edition with the practicality and helpfulness of a Performing Edition. A facsimile of Bach's autograph manuscript was used in the preparation of this edition and the composer's intentions have been preserved to the last detail of particular note is the fact that all stems have been beamed together as they appear in the autograph manuscript. This is of great importance when making interpretive decisions regarding dotted rhythms. Helpful fingering and bowing suggestions are provided by the editor but are clearly distinguished from Bach's original notation allowing the performer the freedom to accept or reject any given suggestion. The volume comes complete with Dr Golan's essay *Performing Bach Dotted Rhythms and Trills in the Sonatas and Partitas for Solo Violin* which also includes scholarly discussions of vibrato fingerings bowing styles and ritardandos in Baroque music the inclusion of this

comprehensive study of Baroque performance practices makes this edition a must for any violinist interested in performing the Bach Sonatas and Partitas in an historically informed manner [Catalogue of Music British Museum,1889](#)
