Partners All A Pictorial Narrative Of An:

Shaping the Culture of Schooling Cheryl Taylor Desmond,1996-01-01 Focusing on the cultural history of the origins of outcome based education OBE this book investigates the social and economic culture of Johnson City New York schools OBE has often been proclaimed the salvation for ailing American schools and has spread to thousands of school districts throughout the United States The reform has also been the lightning rod for fierce challenges from community members who oppose OBE s dismantling of the bell shaped curve and its promotion of secular humanism The author uncovers the messy business of school change and its deep roots in the values of the local community and economy Grounding the story historically and theoretically Desmond analyzes the reshaping of the Johnson City schools from a production mill for blue collar workers to a development center of technologically minded middle class well educated citizens She argues that the heart of successful synergistic school reform lies in the consensus that children have unlimited learning capacity and a long term moral leadership that is committed to caring reciprocal relationships of power **Endicott-Johnson** Ed

Aswad,Suzanne M. Meredith,2003 The Endicott Johnson Corporation emerged from the modest Lester Brothers Company manufacturers of boots and shoes that began in 1854 It was created through the tenacity and vision of great American entrepreneur George F Johnson Johnson rose from abject poverty to ownership of one of the largest shoe industries in the world The village of Endicott was built by Johnson c 1901 and the Triple Cities of Binghamton Johnson City and Endicott made up a classic shoe town USA At its peak during the 1920s and 1930s EJ employed twenty thousand people The monumental impact of corporate policies on life and the local landscape survived long after company doors closed Endicott Johnson combines nostalgia insight stories and memories from area residents This volume offers a comprehensive view into the lives of early twentieth century factory workers and the men who guided the corporation into the annals of industrial history The EJ brand of welfare capitalism resulted in a company town where employee benefits nearly overshadowed the making of shoes and where intense loyalty to the company still exists Revolutionary labor relation policies and a benevolent relationship between corporation and community made EJ an example of a square deal business **A Guide to Local**
