The joint handling of conflicts and peacebuilding challenges by local and international actors has a long tradition in German peace work and is becoming increasingly important in a globalized world. Therefore the book explores the question relevant for both academia and peace practitioners to what extent an equal partnership can exist in the context of civil conflict transformation. By focusing on the opportunities and challenges of cooperation the work succeeds in focusing on everyday activities analyzing the actual processes and frictions of peace work and making a valuable contribution to critical peace research and the discussion of hybridity and friction.    IIN Strategy - A Telecommunications Service Bureau Architecture Technology Architecture Technology Corpor, 2014-06-28 Please note this is a Short Discount publication.
