## **Partners In Health Partners In Crime:**

*Partnership Working* Anthony Douglas,2008-10-29 Partnership working is recognised as the most effective way of improving social care services and a non negotiable part of the government's aim is to provide a seamless care service. However for students undertaking placements or for more experienced professionals moving to a different service area the question is what does it mean in practical terms. This book is both an introduction and an in depth analysis of partnership working across the public sector in the UK. In a comprehensive discussion of partnership working Anthony Douglas explores The history of partnership working its theoretical base and practical applications. Why partnership working is important. How professionals are already working together. How to develop good partnerships and address common difficulties. How to ensure that partnership working really does result in better practice. The future of partnership working. The analysis and examples range across the whole of the public sector with a primary focus on social care. Drawing on up to date research evidence and using plenty of practical examples and thinking points. Partnership Working will be of interest to students and researchers at all levels and practitioners and managers of front line services

Stefan Timmermans,Jonathan Gabe,2003-03-07 Criminology and medical sociology have developed largely independently of one another despite a shared interest in questions of authority expertise social control legitimacy and credibility. This book crosses the divide bringing together essays on the border between crime and health care. The region between the two fields is populated by amongst others forensic health care providers who interpret evidence and provide expert testimony in courts law enforcement agents incarcerating populations with unmet mental health needs and policy makers opting for punitive or treatment oriented policies. In considering the work of these professionals the contributors to this volume map out the medical component of crime and the legal status of medicine
