well organized subject like the modern mineral industry Finally in regard to the protection of investors Muslims and non Muslims under Islamic law the author illustrates that investors are well protected and that no Muslim ruler has the right to deprive them of their property as long as they are performing their obligations Unlike international law under Islamic law public interest alone does not justify the taking of private property Settlement of disputes and the attitude of shari'a towards modern international arbitration are examined Islam Jamila Hussain, 2011-09-19 This book provides an introduction to Islamic law for western readers It explains the origin and development of the Shariah Islamic law It contains updated chapters on the Islamic laws of War and Peace including juristic opinions on the legality of suicide bombing and the use of modern weapons of mass destruction It explains the commonalities and the differences in family laws and the differences in Muslim opinion concerning the status of women It contains a completely rewritten chapter on Islamic finance and rounds off with a look at Muslim communities in Australia and the way they live their lives U.C.
