Time Rift: A completed reluctant hero dystopian sci-fi trilogy Claudia Blood, 2021-03-15 The key to saving the world could be the one thing out of Duff's reach. It's an impossible situation. Time itself is coming apart at the seams and Duff and the Z Crew suspect the key rests with one girl, Horizon. The problem? Horizon is the long-sought-after daughter of their nemesis, Ravenne. She stopped at nothing to retrieve her daughter from the past. Now it's clear: sending Horizon back is the only way to repair the rift, but her mother won't let her go. The underground artifact where they accidentally created the rift is crumbling. No one will survive unless they can escape the mountain falling down around them, but time is shuddering and echoing around them, and the way out isn't clear. To make things worse, thanks to the unpredictability of time rifts, the crew now faces not just one mortal enemy; there are two Ravennes working against them. Will Z Crew escape Ravenne's clutches and set time right again, or will Duff finally have to bend to his enemy's will? Find out in the final installment of the Relic Trilogy.

Horizon Found: A completed reluctant hero dystopian sci-fi trilogy Claudia Blood, 2021-02-15 Saving his family was only beginning. Now Duff must save the world, past and present. Duff Roman might have managed to save the orphanage where he grew up, but his trials are far from over. A familiar enemy returns with a new threat, and the very ground on which they battle is becoming increasingly unstable. The time particles, Relics and Seers, that fuel the economy of Kalecca are disappearing at an alarming rate. As if trying to save the world isn't hard enough, Duff's efforts are complicated by the arrival of Willow, a Seer who only increases the tension both with those who stand against him and within Duff himself. With the world crumbling around him, Duff needs help. Teaming up with a long-hidden group of scientists working to save them all, he must fight against enemies who have banded together and decide where his loyalties lie. One wrong move, and everything he loves will disintegrate.

Dystopias and Utopias on Earth and Beyond Douglas A. Vakoch, 2021-04-29 Caught as we are in a grave climate crisis that seems more irreversible with every passing year, our literary portrayals of the future often feature the dystopian collapse of the world as we know it. Science fiction explores how we got here while pointing toward a more hopeful path forward. From an ecofeminist perspective, a core cause of our current ecological catastrophe is the patriarchal domination of nature playing out in parallel with the oppression of women. As an alternative to dystopian futures that seem increasingly inevitable, ecofeminist science fiction helps us conjure utopias that promote environmental sustainability based on more egalitarian human relationships. *Dystopias and Utopias on Earth and Beyond: Feminist Ecocriticism of Science Fiction* explores the fictional worlds of such canonical novelists as Margaret Atwood, Octavia Butler, Ursula K. Le Guin, Doris Lessing, and Joan Slonczewski, as well as those of lesser-known science fiction writers, as they collectively probe humanity's greatest existential threats. Contributors from five continents provide compelling analyses of far future dystopias on Earth that are all too easy to imagine becoming reality if humankind's current trajectory continues, as well as provocative insights into science fiction utopias set on idyllic planets orbiting distant stars which offer liberatory alternatives that might someday

be actualized in the real world By examining the links between the destruction of the environment and the domination of women Dystopias and Utopias on Earth and Beyond provides the tools to counteract those intertwined oppressions helping create a foundation for a truly habitable world
