Bailey, 2017-01-27 This carefully balanced set of studies and practitioner research projects carried out in various learning contexts around the world highlights cutting edge research in the use of digital learning technologies in language classrooms and in online learning Providing an overview of recent developments in the application of educational technology to language learning and teaching it looks at the experience of researchers and practitioners in both formal and informal self study learning contexts bringing readers up to date with this rapidly changing field and the latest developments in research theory and practice at both classroom and education system levels

Autonomy in Language Learning, 1994 **Language Learning** Christine Chuen Meng Goh, Rita Silver, 2006

Language Learning Environments Phil Benson, 2021-06-04 This book is the first in depth examination of the application of theories of space to issues of second language learning The author introduces the work of key thinkers on the

theory of space and place and the relevance of their ideas to second language acquisition SLA He also outlines a new conceptual framework and set of terms for researching SLA that centre on the idea of language learning environments The book considers the spatial contexts in which language learning takes place and investigates how these spatial contexts are transformed into individualised language learning environments as learners engage with a range of human and nonhuman and physical and nonphysical resources in their daily lives Revisiting linguistics and language learning theory from a spatial perspective the book demonstrates that the question of where people learn languages is equally as important as that of how they do so This work is essential reading for any researcher wishing to research the role of the environment as an active player in SLA
