Managing Pastoral Care:

Managing Pastoral Care Mike Calvert, Jenny Henderson, 1998-04-01 Pastoral care provision in schools has become increasingly marginalized in recent years. However, emphasis on the needs of the whole learner has become ever greater. Coupled with this is a growing recognition of the adverse effects of a wider social malaise on the development of students. This book stresses the need for a radical rethink and reprioritizing of pastoral support. It promotes the belief that pastoral care can contribute to and improve academic achievement and analyzes every aspect of pastoral care and PSE. *Pastoral Care 11-16* Noel Purdy, 2013-03-14 How can teachers deal with the growing pastoral needs of pupils aged 11-16 in schools? This critical guide explores the pastoral role which teachers play in schools and argues that today's schools continue to offer children an invaluable source of support. This guide explores a number of serious pastoral issues drawing on contemporary research to outline the impact which these issues can have on children aged 11-16 and offering practical strategies for providing support on a whole school and individual classroom level. Consideration is also given to how schools can use the curriculum proactively to help pupils be more prepared to deal with serious pastoral issues. Topics dealt with include supporting children who are experiencing separation or divorce, helping to prevent and deal with bullying including cyber bullying, identifying and responding to possible child abuse, understanding the impact of domestic violence, supporting children through bereavement, responding to self-harm and suicide. This is the essential guide for those training to teach in the secondary sector and for practicing teachers who have recently taken on pastoral responsibilities. **Management and the School** Open University, Open University. E323 Management and the School Course Team, 1981. Managing the Curriculum and Pastoral Care, 1981. **Routledge Library Editions: Education Management** Various, 2021-07-29. Reissuing works originally published between 1975 and 1997, this collection includes books covering all aspects of managing schools from primary to further education. With an international selection of authors, some volumes present case studies while others address wider areas of concern in the management of educational institutions. Individual volumes concern special schools and specific types such as the grant-maintained system in the UK. Topics cross over from finance to staff development to politics and governance to innovation. This is an excellent varied set for any education management bookshelf.
