Managing Relationships Making A Life While Making A Living:

Managing Relationships Jagdish Parikh, 1999 **The Ethics of Sustainability in Management** Kenneth Mølberg Jørgensen, 2023-12-13 Organizational storytelling has been taught for many years in many different places as part of organizational development organizational change organizational learning and business ethics There has not been any comprehensive framework that addresses sustainability in organizations and so this book develops a new ethics of sustainability for management and organizations A terrestrial ethics of storymaking is proposed which responds to Latour's claim that the Terrestrial has become a new decisive political actor in politics The Terrestrial is born from Gaia a metaphor for a new look on life on Earth Gaia situates life in the thin layer of matter that is the surface of the Earth It entails the view that nature is a process that humans are part of Storymaking is constructed from Arendt's political philosophy which is rooted ontologically in the principle of natality rebirth of life The term storymaking is developed from Arendt's understanding of storytelling as political action to emphasize not only that stories are spatial embodied and material practices that are tied to a specific time and space but also that technology is an important dimension in making stories Stories are thus human practices that apart from meaning making and politics involve the use and manipulation of material and objects and which are crucial for how a human world is shaped This human world is furthermore shaped by the rhythms of life embedded in the complex landscapes that humans move through Storymaking is developed through rethinking the links between the central categories of labor work action and thinking in Arendt's writings Implications for business ethics are drawn out and a comprehensive ethics framework is constructed that connects the biological and physical with the social economic and political regarding how organizations work Finally a storymaking philosophy of management is constructed making this book especially relevant to researchers academics managers and students in the fields of business ethics management studies leadership organizational studies and international business Engineering Technology, Engineering Education and Engineering Management Deyao Tan, 2015-06-25 This volume contains papers presented at the International Conference on Engineering Technologies Engineering Education and Engineering Management ETEEEM 2014 Hong Kong 15-16 November 2014 A wide variety of topics is included in the book Engineering Education Education Engineering and Technology Methods and Learning Mechanisms in Engineering Education Engineering Technologies Mechanical and Materials Engineering Financial Engineering Energy and Environmental Engineering Social Engineering Information Engineering Bioengineering and Chemical engineering Engineering Management Decision Support System Project and Quality Management Human Resource Management The book will be of interest to academics and professionals in Engineering Technologies Engineering Education and Engineering Management **Labor-management Relations** United States.
