Chicano Sketches Mario Suárez, 2004-10 Mario Suárez will tell you Garza's Barber Shop is more than razors scissors and hair It is where men disgruntled at the vice of the rest of the world come to get things off their chests The lawbreakers come in to rub elbows with the sheriff's deputies And when zoot suiters come in for a trim Garza puts on a bit of zoot talk and hep cats with the zootiest of them A key figure in the foundation of Chicano literature Mario Suárez 1923-1998 was among the first writers to focus not only on Chicano characters but also on the multicultural space in which they live whether a Tucson barbershop or a Manhattan boxing ring Many of his stories have received wide acclaim through publication in periodicals and anthologies this book presents those eleven previously published stories along with eight others from the archive of his unpublished work It also includes a biographical introduction and a critical analysis of the stories that will broaden readers' appreciation for his place in Chicano literature In most of his stories Suárez sought to portray people he knew from Tucson's El Hoyo barrio a place usually thought of as urban wasteland when it is thought of at all Suárez set out to fictionalize this place of ignored men and women because he believed their human stories were worth telling and he hoped that through his depictions American literature would recognize their existence By seeking to record the so-called underside of America Suárez was inspired to pay close attention to people's mannerisms language and aspirations And by focusing on these barrio characters he also crafted a unique mild mannered realism overflowing with humor and pathos Along with Fray Angélico Chávez Suárez stands as arguably the mid-twentieth century's most important short story writer of Mexican descent Chicano Sketches reclaims Suárez as a major figure of the genre and offers lovers of fine fiction a chance to rediscover this

major talent **The Cruel Radiance** Susie Linfield, 2011-05-27 In *The Cruel Radiance* Susie Linfield challenges the idea that photographs of political violence exploit their subjects and pander to the voyeuristic tendencies of their viewers. Instead, she argues passionately that looking at such images and learning to see the people in them is an ethically and politically necessary act that connects us to our modern history of violence and probes the human capacity for cruelty. Grappling with critics from Walter Benjamin and Bertolt Brecht to Susan Sontag and the postmoderns and analyzing photographs from such events as the Holocaust, China's Cultural Revolution, and recent terrorist acts, Linfield explores the complex connection between photojournalism and the rise of human rights ideals. In the book's concluding section, she examines the indispensable work of Robert Capa, James Nachtwey, and Gilles Peress and asks how photography should respond to the increasingly nihilistic trajectory of modern warfare. A bracing and unsettling book, *The Cruel Radiance* convincingly demonstrates that if we hope to alleviate political violence, we must first truly understand it, and to do that, we must begin to look.

Memoir of Count de Montalembert Mrs. Oliphant (Margaret), 1872 **Judaism and Christianity** Crawford Howell Toy, 1890 **The Young Woman's Journal**, 1904 **Primitive Love and Love-stories** Henry T. Finck, 1899 **Harriet Martineau's Autobiography** Harriet Martineau, 1877 *Annals of Medical History*, 1917 **The Islamic Review**, 1915 **The Plays of Aeschylus** Aeschylus, 1892 *Everybody's Magazine*, 1922 *The Trouble With Gravity* Richard Panek, 2019-07-09

What is gravity? Nobody knows, and just about nobody knows that nobody knows. How something so pervasive can also be so mysterious and how that mystery can be so wholly unrecognized outside the field of physics is one of the greatest conundrums in modern science. But as award-winning author Richard Panek shows in this groundbreaking mind-bending book, gravity is a cold case that's beginning to heat up. In *The Trouble with Gravity*, Panek invites the reader to experience this ubiquitous yet elusive force in a breathtakingly new way. Gravity, Panek explains, structures not only our bodies and our physical world but also our minds and culture. From our very beginnings, humans' conceptions of gravity have been inextricably bound to our understanding of existence itself. As we get closer and closer to solving the riddle of gravity, it is not only physics that is becoming clearer; we are also getting to know ourselves as never before.
