Alois Mailänder - From the perspective of his students Erik

Dilloo-Heidger,2025-12-10 Alois Mailänder 1843 1905 was a Christian mystic from the Allgäu Germany region. As a spiritual mentor to Gustav Meyrink and over fifty other important contemporaries he played a central role in the German Theosophical movement and beyond from 1885 onwards Karel Weinfurter who himself was a leading student on a Christian spiritual path in the 1930s reported on the significant things he learnt from his teacher Alois Mailänder. The novelist Gustav Meyrink who spent a lifetime practising and testing the inspirations of his teacher Alois Mailänder wrote about the results of his training. The Theosophist Wilhelm Hübner Schleiden who made a significant contribution to the founding of a Theosophical Society in Germany spent two whole summers in Alois Mailänder's house and reports in his diary what he experienced there. The doctor and occultist Franz Hartmann introduced Alois Mailänder to the circle of Theosophists. He investigated whether Alois Mailänder's methods could be further developed into a systematic doctrine.

[Liber 420](#) Chris Bennett,2018-04-20 Although little known cannabis and other psychoactive plants held a prominent and important role in the Occult arts of Alchemy and Magic as well as being used in ritual initiations of certain secret societies. Find out about the important role cannabis played in helping to develop modern medicines through alchemical works. Cannabis played a pivotal role in spagyric alchemy and appears in the works of alchemists such as Zosimos Avicenna, Llull, Paracelsus, Cardano and Rabelais. Cannabis also played a pivotal role in medieval and renaissance magic and recipes with instructions for its use appear in a number of influential and important grimoires such as the Picatrix, Sepher Raziel, Liber Salomonis and The Book of Oberon. Could cannabis be the Holy Grail? With detailed historical references the author explores the allegations that the Templars were influenced by the hashish ingesting Assassins of medieval Islam and that myths of the Grail are derived from the Persian traditions around the sacred beverage known as haoma which was a preparation of cannabis, opium and other drugs. Many of the works discussed have never been translated into English or published in centuries. The unparalleled research in this volume makes it a potential perennial classic on the subjects of both medieval and renaissance history of cannabis as well as the role of plants in the magical and occult traditions.
