in the 1960s gave the world some of the greatest music in rock n roll history California Dreamin by the Mamas and the Papas Mr Tambourine Man by the Byrds and Good Vibrations by the Beach Boys a song that magnificently summarized the joy and beauty of the era in three and a half minutes But there was a dark flip side to the fun fun fun of the music a nexus between naive young musicians and the hangers on who exploited the decade s peace love and flowers ethos all fueled by sex drugs and overnight success One surf music superstar unwittingly subsidized the kidnapping of Frank Sinatra Jr The transplanted Texas singer Bobby Fuller might have been murdered by the Mob in what is still an unsolved case And after hearing Charlie Manson sing Neil Young recommended him to the president of Warner Bros Records Manson s ultimate rejection by the music industry likely led to the infamous murders that shocked a nation *Everybody Had an Ocean* chronicles the migration of the rock n roll business to Southern California and how the artists flourished there The cast of characters is astonishing Brian and Dennis Wilson of the Beach Boys Jan and Dean eccentric producer Phil Spector Cass Elliot Sam Cooke Ike and Tina Turner Joni Mitchell and scores of others and their stories form a modern epic of the battles between innocence and cynicism joy and terror You ll never hear that beautiful music in quite the same way *Hypnotic Leadership* Micha

Popper,2001-03-30 Charismatic leadership in its extreme manifestations resembles a hypnotic situation in which the followers lose their autonomic judgment Popper compares leadership to fire The leader is the spark the followers the fuel and the circumstances the oxygen that feeds the flames Fire can destroy everything in its path and such a strong fire is a metaphor for what is described as Hypnotic Leadership Describing examples of hypnotic leadership and using theories and concepts from psychology and the social sciences Dr Popper begins by providing three examples of leaders defined as hypnotic whose spheres of influence ranged from a small group to millions of people He then looks at the object of the hypnotism the followers demonstrating the psychological meaning of the yearning for a leader While describing this as a possible general condition Popper qualifies the universality of the argument referring to differences between cultures in the attitudes toward authority or the ability to tolerate ambiguity These differences are of great significance in terms of the susceptibility of being hypnotized by a charismatic leader Popper then examines the meeting of factors that create the drama of hypnotic leadership presenting the central concepts that are used in analyzing the phenomenon and demonstrating their use with reference to examples cited and the analysis of the processes in a broad perspective This is a provocative analysis

Can't Find My Way Home Martin Torgoff,2004-05-13 Can t Find My Way Home is a history of illicit drug use in America in the second half of the twentieth century and a personal journey through the drug experience It s the remarkable story of how America got high the epic tale of how the American Century transformed into the Great Stoned Age Martin Torgoff begins with the avant garde worlds of bebop jazz and the emerging Beat writers who embraced the consciousness altering properties of marijuana and other underground drugs These musicians and writers midwifed the age of marijuana in the 1960s even as Timothy Leary and Richard Alpert later Ram Dass discovered the power of LSD ushering in the psychedelic era While President John Kennedy proclaimed a New Frontier and NASA journeyed to the moon millions of young Americans began discovering their own new frontiers on a voyage to inner space What had been the province of a fringe avant garde only a decade earlier became a mass movement that affected and altered mainstream America And so America sped through the century dropping acid and eating magic mushrooms at home shooting heroin and ingesting amphetamines in Vietnam snorting cocaine in the disco era smoking crack cocaine in the devastated inner cities of the 1980s discovering MDMA Ecstasy in the rave culture of the 1990s Can t Find My Way Home tells this extraordinary story by weaving together first person accounts and historical background into a narrative vast in scope yet rich in intimate detail Among those who describe their experiments with consciousness are Allen Ginsberg Timothy Leary Robert Stone Wavy Gravy Grace Slick Oliver Stone Peter Coyote David Crosby and many others from Haight Ashbury to Studio 54 to housing projects and rave warehouses But Can t Find My Way Home does not neglect the recovery movement the war on drugs and the

ongoing debate over drug policy And even as Martin Torgoff tells the story of his own addiction and recovery he neither romanticizes nor demonizes drugs If he finds them less dangerous than the moral crusaders say they are he also finds them less benign than advocates insist Illegal drugs changed the cultural landscape of America and they continue to shape our country with enormous consequences This ambitious fascinating book is the story of how that happened

A Philosophical Inquiry into the Structure of Scientific Progress Regarding Beriberi. The Development of a Paradigm Shift Tom Behrendt,2021-04-13 Bachelor Thesis from the year 2020 in the subject Philosophy Philosophy of the 20th century grade 1 0 Humboldt University of Berlin Philosophie language English abstract This bachelor s thesis argues for a paradigm shift that

emerged as a direct consequence of the gradually developed knowledge regarding the etiology of beriberi We are used to the medical and nutritional values of vitamins we cherish their effectiveness against diseases or plunge into debates on whether vegans face the risk of running low on B12 What we however do not conceive of so much is how the knowledge of vitamins in the early 20th century changed the way medical scientists and practitioners theorized disease causation With the advent of modern microbiology almost every disease was thought to be caused by external agents like bacteria viruses or protozoal pathogens But what if some diseases cannot be explained by such intrusions What if when without the intrusion of diminutive things the bodily functions will cease The answer is a gradual transformation of a medical paradigm of disease causation by external factors into a paradigm of internal ones
