Green,2015-12-22 The Microwave Gourmet Cookbook The central concept behind the Microwave Gourmet was to develop a

list of recipes that all of us could use in a pinch when we want a delicious meal but are limited on time and materials Cooking

with microwaves is almost looked down upon by chefs and professionals in food preparation People seem to have a

predisposition to assume microwave food is fast and cheap as if to prepare food in a microwave damns that food to be

mediocre and unfulfilling We say You're just not cooking the right things Well we're about to change all that These are some

of the most tasteful and enjoyable recipes we have experimented with and we think you'll really appreciate both the flavor

and effortlessness of them Will this book make you a food Genius Perhaps it will Will it give you decadent food weapons to
