Bernard Lewis,2009-12-15 Renowned historian Bernard Lewis charts the history of the Middle East over the last 2 000 years from the birth of Christianity through the modern era focusing on the successive transformations that have shaped it Drawing on material from a multitude of sources including the work of archaeologists and scholars Lewis chronologically traces the political economical social and cultural development of the Middle East from Hellenization in antiquity to the impact of westernization on Islamic culture Meticulously researched this enlightening narrative explores the patterns of history that have repeated themselves in the Middle East From the ancient conflicts to the current geographical and religious disputes between the Arabs and the Israelis Lewis examines the ability of this region to unite and solve its problems and asks if in the future these unresolved conflicts will ultimately lead to the ethnic and cultural factionalism that tore apart the former Yugoslavia Elegantly written scholarly yet accessible this is the most comprehensive single volume history of the region ever written from the world s foremost authority on the Middle East *The Unmaking of the Middle East* Jeremy

Salt,2008-07-09 Devastating in its portrayal of the depths to which the West France Britain and the US especially sank in conquering the Middle East Starting off with Huntington s quote about Islam s bloody borders Salt argues that it was the West that made these borders bloody though in the process it had no trouble finding native accomplices who helped wittingly or not Mehran Kamrava author of The Modern Middle East This will be of much use to general readers who are ill served by the preponderance of books in the marketplace that explain political events by recourse to stereotypical representations of

Arabs and Islam while neglecting important historical events that define current political and social reality in the region. None of the general history books on the Middle East offer comparable comprehensive details. Joseph A. Massad, author of *Desiring Arabs*. This excellent book is comprehensive in scope, scholarly and yet highly readable. Focusing on the damaging role of western policy in the Middle East, well exemplified in the current debacle in Iraq. It will be essential reading for students and historians of the region. Ghada Karmi, author of *Married to Another Man*. Israel's Dilemma in Palestine. Salt makes it abundantly clear that when it comes to the Middle East, the West talks idealistically and acts brutally. This excellent book should be required reading for future American policymakers thinking about invading another Arab or Islamic country. John J. Mearsheimer, R. Wendell Harrison, Distinguished Service Professor of Political Science at the University of Chicago.

The Modern Middle East James L. Gelvin, 2016. Extensively revised and updated in the wake of the Arab uprisings, the changes that they fostered and the fault lines that they exposed. The fourth edition of *The Modern Middle East* explores how the forces associated with global modernity have shaped the social, economic, cultural, and political life in the region over the course of the past 500 years. Beginning in the sixteenth century, this book examines the impact of imperial and imperialist legacies, the great nineteenth-century transformation, cultural continuities and upheavals, international diplomacy, economic booms and busts, and the emergence of and resistance to authoritarian regimes. Engagingly written, drawing from the author's own research and other studies and enriched with maps and photographs, original documents, and an abundance of supplementary materials, this text provides students with fresh insights into the events and debates that have shaped history and absorbed historians.

The Middle East: A History William Ochsenwald, Sydney Nettleton Fisher, 2010-01-06. Minorities in the Middle East Mordechai Nisan, 2015-10-02. The struggle for independence by minorities in the Middle East, those people who are non-Arab or non-Muslim, is affecting the political climate around the world. War and terrorism are threatening the safety of many minority communities, and repression of minorities still remains standard state policy in some countries. This updated and revised edition of the 1991 original provides a wealth of historical and political detail for all the indigenous peoples of the Middle East. Pressed to persist in a threatening environment, these minorities—Kurds, Berbers, Baluchi, Druzes, Alawites, Armenians, Assyrians, Maronites, Sudanese, Christians, Jews, Egyptian Copts, and others—share similar experiences and have been known to cooperate for shared goals. Important events and new trends regarding the welfare of these groups are covered, and numerous oral histories add to the new edition.
