Middle East Contemporary Survey, Volume XI, 1987 Itamar Rabinovich, Haim Shaked, Barbara Newson, 2022-06-30

Established in 1977 the Middle East Contemporary Survey MECS a unique annual record of political developments in the Middle East is acknowledged as the standard reference work on events and trends in the region. Designed to be a continuing up to date reference for scholars, researchers and analysts, policymakers, students and journalists, it examines in considerable detail the rapidly changing Middle Eastern scene in all its complexity. In each volume the material is arranged in two parts. The first contains a series of essays on broad regional issues and on the overall relations of the region with other parts of the world. The second consists of country by country surveys of all the Arab states as well as Turkey, Israel and Iran. The accent in the second part is on elucidating the inner dynamics of each country's polity and society. In a work of this kind the events of the past year inevitably dictate the major themes of each volume. The topics discussed in Volume XI which covers the year 1987 include

Middle East Contemporary Survey, Volume Xi, 1987 Itamar Rabinovich, Haim Shaked, 1989-09-20 *Israel On The Road To Peace* Ziva Flamhaft, 2018-10-08 An in depth study of the effects of Israel's internal struggles on the Arab-Israeli peace process. This book examines how Israel's leaders and citizens have reacted to the various proposals in the post-Camp David era from the 1982 Reagan plan to the signing of the Declaration of Principles in 1993. The author examines the dramatic consequences of the peace process including the ultimate fall of the NUG in 1990 and shows how the end of the Cold War and the Gulf War encouraged negotiations. An in depth study of the effects of Israel's internal struggles on the Arab-Israeli peace process. This book examines how Israel's leaders and citizens have reacted to the various proposals in the post-Camp David era including the 1982 Reagan plan, the 1988 Shultz initiative and the 1989 Mubarak and Baker plans. Ziva Flamhaft also analyzes reactions to the signing of the Declaration of Principles in 1993. Focusing on the domestic political scene, she exposes the efforts of the Israeli political right to undermine the peace process and illuminates the dramatic consequences of that process: the reaction of Prime Minister Begin to the Reagan plan, the near collapse of the National Unity Government, NUG, in 1987-88 and the ultimate fall of the NUG in 1990 as a result of the Baker plan. Flamhaft then looks at how the end of the Cold War and the Gulf War helped to encourage negotiations and evaluates why the Likud Party was replaced by Labor in 1992. Finally, Flamhaft demonstrates the futility of third party mediation when negotiations are rejected domestically and discusses the essential conditions required for effective mediation. **The Ba'thification of Iraq** Aaron M. Faust, 2015-11-15 Saddam Hussein ruled Iraq as a dictator for nearly a quarter century before the fall of his regime in 2003.

Using the Ba th party as his organ of meta control he built a broad base of support throughout Iraqi state and society Why did millions participate in his government parrot his propaganda and otherwise support his regime when doing so often required betraying their families communities and beliefs Why did the Husseini Ba thist system prove so durable through uprisings two wars and United Nations sanctions Drawing from a wealth of documents discovered at the Ba th party s central headquarters in Baghdad following the US led invasion in 2003 The Ba thification of Iraq analyzes how Hussein and the party inculcated loyalty in the population Through a grand strategy of Ba thification Faust argues that Hussein mixed classic totalitarian means with distinctly Iraqi methods to transform state social and cultural institutions into Ba thist entities and the public and private choices Iraqis made into tests of their political loyalty Focusing not only on ways in which Iraqis obeyed but also how they resisted and using comparative examples from Hitler s Germany and Stalin s Russia The Ba thification of Iraq explores fundamental questions about the roles that ideology and culture institutions and administrative practices and rewards and punishments play in any political system

Power and Paranoia in Syria-Iraq Relations

Amjed Rasheed,2023-03-02 This book examines the perplexing twists and turns in Syria Iraq relations which since the establishment of modern Syria and Iraq after World War I have zigzagged between cooperation and hostility countless times It questions why both countries switched regional and international alliances but never formed one of their own and assesses the role played by structural forces such as geopolitics ideology and regime survival It also argues that a key factor was the individual personalities the agency role of Hafez Assad and Saddam Hussain both of whom had a monopoly of power similar ambitions and leadership styles and great mistrust of each other with the result that they clashed It goes on to show how both were caught between commitment to pan Arabism and the imperative for regime survival and how this led them both to weaken pan Arabism instead and construct sectarian polarisation to ensure regime survival The book concludes that their ruthless fight left a heavy legacy where in both countries regime survival overshadowed state consolidation and nation building with both countries divided into smaller communities of faiths and ethnicities at war with each other

Lebanon John C. Rolland,2003 Lebanon Current Issues Background

Kurdistan in Iraq Aram Rafaat,2018-05-11 The Kurdish Iraqi conflict lies in the fact that Kurdistan is a nation without a state and Iraq is a non nation state each possessing a nationhood project differing from and opposing the other Iraqi Kurdistan is an outward looking entity seeking external patronage Though external patronage has played a pivotal role in the evolution of the Kurdish quasi state a lack of positive patronage has prevented it from achieving independence This book looks at how the Kurdish and Iraqi quests for nationhood have led to the transformation of Iraqi Kurdistan into an

unrecognised quasi state and the devolution of the Iraqi state into a recognised quasi state This is done by examining the protracted Iraqi Kurdish conflict and by analysing the contradictions and incompatibilities between the two different nationalisms Iraqi and Kurdish The author explains that Kurds as a nation without a state have their own nationhood project which is in opposition to the Iraqi nationhood project Each has its own identity loyalty and sovereignty The book answers the question as to how the Kurdish quest for nationhood has been treated by successive Iraqi regimes Furthermore it fills in the literary gaps which exist in relation to the Iraqi Kurdish conflict by specifying and categorising the cardinal conditions that drive ethnic and nationalist conflicts which lead to the creation of separatist entities Drawing upon a vast amount of untapped Kurdish and Arabic primary sources the book draws on prominent theories on nation states and quasi states It will particularly appeal to students and scholars of international relations political theory and Middle Eastern Studies
