Baker,2020-06-05 In this book I take you on a journey as unusual as that of Chiron s orbit as it meanders far out into the distant realm of Uranus and then all the way back to Saturn The book starts off with the Chiron mythology You will discover how the theme of connecting two worlds lies everywhere about the place We then turn our gaze to the lives of Abraham Lincoln and Charles Lindbergh two lives created by the same soul As we unravel how these lives are connected we catch a first glimpse of how Chiron relays a trauma charge from Lincoln s life to that of Lindbergh and how that trauma charge is connected to a life immediately prior to Lincoln s the life of a Himalayan yogi who died with an unfulfilled wish of bringing about racial equality The Planetary Nodes are brought in to show how there is not only trauma and healing continuity between these three lives but also continuity in the nature of will the south nodes of Mars and are traced from Lindbergh all the way back to the life of the yogi In the final chapters of the book I use the planetary nodes to show you how the lives of Anne Frank and Barbro Karl n two consecutive lives created by the same soul are connected and how Chiron transfers trauma from Anne s life to that of Barbro in an attempt to heal the pain overcome the trauma and so evolve The chapters in between these two bookends take you deep into the lives and charts of Richard Nixon Nina Simone Jim Jones and Josef Mengele These chapters are rich in biographical detail and extremely well referenced so that you may relate astrological findings back to the actual life as lived by the person As we go through these lives and corresponding charts you will discover how there are four trauma indicators in any given chart and how Chiron brings past life trauma into the current life and with it the potential for healing For each of the charts belonging to these four lives I give you the full orbital picture for Mercury right up to Neptune so that via their respective south and north nodes you may grasp the evolutionary meaning of a planet s actual movement In addition to being handed the Chiron key allowing you to work therapeutically with your clients as past life trauma is reenacted in their lives and you help them on their path of healing this book shows you how to use the planetary nodes in individual chart analysis It is my sincere hope and stated wish in writing and teaching this material that you may use it in your own healing process and in that of your clients **Chiron** Adam Gainsburg,2006-09-01 Often referred to as the wounded healer astrological Chiron reveals what it means to be truly wisely human Chiron The Wisdom of a Deeply Open Heart presents a thorough examination of the psychological mythological and evolutionary meanings in the symbol of

Chiron based in Gainsburg's extensive clinical experience working with individuals and couples. He lays out the Chironic landscape of the Soul by examining the origin of the sacred wound, the psyche's defenses, and emotional reality of the wound resurfacing later in life and how the wound becomes our sacred medicine or our unique and embodied wisdom. Most notable is an original method of effectively interpreting Chiron's polarity position within an evolution of consciousness framework. Includes a general and refreshing exploration of astrological polarity in light of leading insights into the nature of evolving consciousness, a look at the meaning of Chiron's glyph, Chiron through the signs and houses, in-depth examinations of the sacred wound, the medicine, the broken open heart, and the medicine walk archetypes, the karmic implications of Chironic placement, Chiron retrograde, and the popular article *The Chiron Moon Connection*. — *Chiron* Ahura Sevgi Alis Yildirim, 2020-02-17

This book is about Greek mythological character Chiron. The foremost target audience of this book is astrologers, those who know astrology, study mythology, or anyone who is interested in the subject. Chiron has shown itself in Pasadena, California, on the 1st of November 1977. And now, at the age of 42, He calls out from Zmir, Bergama, Pergamon town, the region where Chiron had first initiated Asklepios into medicine. This book, which aims to answer the question why Chiron, our healer, has come back and joined us, is priceless for this very reason. The nine exercises in the book help readers to find the endless goodness in their natal charts and lives. The reader can increase or vary the actions of goodness through their own interpretation since they already know what houses, signs, planets, and lights represent in the charts. My main goal of the book is simply to teach the reader how to be a technician of this method. — *The Continuing Discovery of Chiron* Erminie Huntress Lantero, 1983
