The Role of the Traditional Birth Attendant in Western Samoa Through the Perceptions of Three Groups Fulisia Pita-Uo Aiavao,1993 Birth Without Doctors Jacqueline Vincent-Priya,2013-11-05 Most women giving birth in rural communities throughout the Third World cannot enjoy the benefits of modern medical assistance They are usually too expensive and too far away This book is the result of journeys and conversations between the author traditional midwives and mothers which took place over several years in Malaysia and Indonesia It describes traditional birthing practices and the communities in which they have arisen For normal births the safety record is impressive but so too is the reassurance of ritual and the incorporation of birthing into family and society It is interesting to discover that many practices are based not only on

religious understandings but also on sound herbal medical precautions The book's point is not merely to demonstrate the skill of the traditional midwives nor even to challenge what seems to be the medical view that pregnancy is an illness but to give an insight into worlds where barefoot midwifery is the norm Originally published in 1991 *Midwives in Between Some Thoughts on the Training of Traditional Birth Attendants in Samoa, Tonga and Fiji* Christine Loytved,1990 [Birthing in the Pacific](#) Vicki Lukere,Margaret Jolly,2001-11-30 This collection explores birthing in the Pacific against the background of debates about tradition and modernity A wide ranging introduction and conclusion together with case studies from Papua New Guinea New Caledonia Vanuatu Fiji and Tonga show how simple contrasts between traditional and modern practices technocratic and organic models of childbirth indigenous and foreign approaches and notions of before and after can be potent but problematic The difficulties entailed confront public health programs concerned with practical issues of infant and maternal survival in developing countries as well as scholarly analyses of birthing in cross cultural contexts The introduction analyzes central concepts and themes questions of survival safety and well being the significance of postures practices and sites the role of midwives traditional birth attendants and nurses and the role of men in birthing and reproduction

Contributors four anthropologists a historian and a community health worker offer insights into the ways mothers midwives and nurses relate the traditional and the modern and how ideas of tradition and modernity have shaped representations of Pacific childbirth The conclusion provides researchers with a guide to relevant literature from several disciplines As a whole the collection warns against either a celebration of emancipation through biomedicine or a recuperative romance about women's past powers in reproduction Contributors Ruta Fiti Sinclair Margaret Jolly Vicki Lukere Shelley Mallett Helen

Morton Christine Salomon **Touching Bellies, Touching Lives** Judy Gabriel,2015-05-18 When I got there I found the girl lying on the floor naked and screaming with the baby's foot sticking out Judy Gabriel gives humble authentic voice to the personal experiences and practices of scores of traditional midwives in rural Mexico The midwives talk about their childhoods marriages losses rituals and techniques The rich narratives describe childbirth before modern medicine redefined it Intended to engage enrich and inspire Gabriel's work tells of the women who received generations of babies into their hands when knowledge about childbirth came from women's bodies from instinct from dreams and from other women The stories unfold in the context of high intervention obstetrics and soaring Cesarean rates a world that often degrades women and violates the sanctity of birth An ideal supplemental text for courses in cultures of Mesoamerica the anthropology of reproduction midwifery and birth medical or biological anthropology and midwifery practice in historical and cross cultural context Additions **Birth without doctors** Jacqueline Vincent Priva,2013
