Miedo A Carmen:

El sentimiento del miedo en la obra de Miguel Delibes Jesús Rodríguez, 1989 Border Killers Elizabeth Villalobos, 2024-05-14

Border Killers delves into how recent Mexican creators have reported analyzed distended and refracted the increasingly violent world of neoliberal Mexico especially its versions of masculinity By looking to the insights of artists writers and filmmakers Elizabeth Villalobos offers a path for making sense and critiquing very real border violence in contemporary Mexico Villalobos focuses on representations of border killers in literature film and theater The author develops a metaphor of maquilization to describe the mass production of masculine violence as a result of neoliberalism The author demonstrates that the killer is an interchangeable cog in a societal factory of violence whose work is to produce dead bodies By turning to cultural narratives Villalobos seeks to counter the sensationalistic and stereotyped media depictions of border residents as criminals The cultural works she examines instead indict the Mexican state and the global economic system for producing agents of violence Focusing on both Mexico s northern and southern borders Border Killers uses Achille Mbembe s concept of necropolitics and various theories of masculinity to argue that contemporary Mexico is home to a form of necropolitical masculinity that has flourished in the neoliberal era and made the exercise of death both profitable and necessary for the functioning of Mexico s state cartel corporate governance matrix
