Random Walks in Solitude

Anil Vishnu Moharir,2024-07-11 Random Walks In Solitude Glimpses of Religion and Spirituality through the Eyes of Modern

Science The Random Walks in Solitude Glimpses of Religion and Spirituality through the Eyes of Modern Science is a

collection of articles published by the author since 2006 AD The topics include some of the most complex and enigmatic

subjects as Concept of Prana Universal Consciousness Scientific basis of Samudra Manthan the Proverbial Churning of

Cosmic Ocean Lord Dattatreya Ardha Nari Nateshwara and Science behind Yogic Samadhi While doing so the author does

not claim that his interpretations on some of these enigmatic concepts are exactly true but in the absence of any serious

attempt done so far they feel refreshing and he has attempted to re validate religion and spirituality on scientific logic and

reasons Otherwise we as a community were just holding them dear to our hearts for thousands of years as fanciful stories

These concepts were conceived and described by our ancient Rishis in native terminologies and language and since then

have remained a part of our psyche in our life Today as professional scientists we need to re look to these concepts afresh

from modern scientific perspective identify and correlate them with current scientifically analogous terminologies without

losing their original perceptive meaning they conveyed to our minds In this respect the logical scientific interpretations of the

concepts of Soul Rebirth Work and the Law of Karma published earlier by the author have received considerable attention

and appreciation In the same spirit the author hopes that the readers would find this book also equally interesting innovative

refreshing and scientifically logical to realize the continued relevance of the Sanatan Vedic Philosophy even in the twenty

first century
