## **Mighty Eighth In Wwii A Memoir:**

*The Mighty Eighth in WWII: A Memoir* J. Kemp McLaughlin USAFR (Ret.), One of the great bomber pilots of World War II recalls his various missions over the European theater from bombing heavy water installations in Norway to the raid that nearly wiped out German ball bearing production    **The Mighty Eighth in WWII** J. Kemp McLaughlin, 2014-04-23 On an early morning in the fall of 1942 Kemp McLaughlin's group set out for a raid on a French target. Immediately after dropping its bombs McLaughlin's plane was hit. A huge fire burned a four foot hole in his wing. His waist gunner bailed out; his radio operator was wounded; the plane lost all oxygen and his pilot put on a parachute and sat on the escape hatch waiting for the plane to explode. And this was only McLaughlin's first sortie. McLaughlin went on to pilot the mission command plane on the second raid against Schweinfurt, the largest air raid in history which resulted in the destruction of 70 percent of German ball bearing production. McLaughlin also participated in the bombing of heavy water installations in Norway. The Mighty Eighth in WWII also includes the stories of downed pilots in France and Holland who traveled under the cover of night through the countryside evading the Nazis who had seen their planes go down. As a group leader McLaughlin was responsible for the planning and execution of air raids forced to follow the directives of senior and sometimes less informed officers. His position as one of the managers of the massive sky trains allows him to provide unique insight into the work of maintenance and armament crews, preflight briefings and off duty activities of the airmen. No other memoir of World War II reveals so much about both the actual bombing runs against Nazi Germany and the management of personnel and material that made those airborne armadas possible.

*United States Air Force and Its Antecedents* James T. Controvich, Martin Gordon, 2004-06-24 This expanded and revised edition of the bibliography originally compiled for the United States Air Force Historical Research Agency is the most comprehensive listing of unofficial published histories of the United States Air Force and its antecedents. It covers the air force from its genesis as the US Army Signal Corps Aviation Section to the present. These titles are a rich source of information for anyone interested in the history of combat and peacetime operations of the Air Force. Researchers and libraries will find the organization of titles easy to use. This is an indispensable resource for military aviation historians, libraries with strong collections in military and air force history and unit history collectors. It is also of special interest to genealogists as many unit histories contain rosters and photos of personnel.    **The Western European and Mediterranean Theaters in World War II** Donal Sexton, 2011-10-06 The Western European and Mediterranean Theaters in World War II is a concise comprehensive guide for students, teachers and history buffs of the Second World War.
