Migrant In The City:

Migrant City Les Back, Shamser Sinha, 2018-06-18 Migrant City tells the story of contemporary London from the perspective of thirty adult migrants and two sociologists. Connecting migrants' private struggles to the public issues at stake in the way mobility is regulated, channelled and managed in a globalised world, this volume explores what migration means in a world that is hyper connected but where we see increasingly mobile, invasive and technologically sophisticated forms of border regulation and control. Migrant City is an innovative collaborative ethnography based on research with migrants from a wide variety of social backgrounds spanning in some cases a decade. It utilises recollections, photographs, poems, paintings, journals and drawings to explore a wide range of issues. These range from the impact of immigration control and surveillance on everyday life to the experience of waiting for the Home Office to process their claims and the limits this places on their lives to the friendships and relationships with neighbours that help to make London a home. This title will appeal to students, scholars, community workers and general readers interested in migration, race and ethnicity, social exclusion, globalisation, urban sociology and inventive social research methods.

Migrant in the City Lloyd Henry Rogler, 1984 *Immigration and the City* Eric Fong, Brent Berry, 2017-03-16 The majority of immigrants settle in cities when they arrive and few can deny the dynamic influence migration has on cities. However, a one size fits all approach cannot describe the activities and settlement patterns of immigrants in contemporary cities. The communities in which immigrants live and the jobs and businesses where they earn their living have become increasingly diversified. In this insightful book, Eric Fong and Brent Berry describe both contemporary patterns of immigration and the urban context in order to understand the social and economic lives of immigrants in the city. By exploring topics such as residential patterns, community form and cultural influences, this book provides a broader understanding of how newcomers adapt to city life while also reshaping its very fabric. This comprehensive and engaging book will be an invaluable text for students and scholars of immigration, race, ethnicity and urban studies.

Migrant City Panikos Panayi, 2020-04-07 The first history of London to show how immigrants have built, shaped and made a great success of the capital city. London is now a global financial and multicultural hub in which over three hundred languages are spoken. But the history of London has always been a history of immigration. Panikos Panayi explores the rich and vibrant story of London from its founding two millennia ago by Roman invaders to Jewish and German immigrants in the Victorian period to the Windrush generation invited from Caribbean countries in the twentieth century. Panayi shows how migration has been fundamental to London's economic, social, political and cultural development. Migrant City sheds light on the various ways in which newcomers have shaped London life, acting as cheap labour, contributing to the success of its financial sector, its curry houses and its football clubs. London's economy has long been driven by migrants from earlier continental financiers and more recent European Union citizens. Without immigration, fueled by globalization, Panayi argues, London would not have become the world city it is today.
