## **Migrant Laborers:**

**The Fight For Time** Paul Apostolidis, 2018-12-14 In today's precarious world working people's experiences are strangely becoming more alike even as their disparities sharpen. The Fight for Time explores the logic behind this paradox by listening to what Latino day laborers say about work and society. The book shows how migrant laborers are both exception and synecdoche in relation to the precarious conditions of contemporary work life. As unauthorized migrants these workers are subjected to extraordinarily harsh treatment yet in startling ways they also epitomize struggles that apply throughout the economy. Juxtaposing day laborers' descriptions of their desperate circumstances and dangerous work with theoretical accounts of the forces fueling insecurity. The Fight for Time illuminates the temporal contradictions that define precarity today. The book taps the core intellectual current among day labor groups Paulo Freire's popular education theory to craft an original critical popular approach for understanding the points of connection between the ways that day laborers view their lives and scholarly analysis of precarious work life writ large. The result is a temporally attuned and politically bracing perspective on neoliberal crises the work ethic in the era of affective and digital labor the intensifying racial governance of public spaces the burgeoning deportation regime and the growth of occupational safety and health hazards. The accounts of the day laborers in this book are rich with potential to catalyze social critique among migrant workers and clarify the terms on which mass scale opposition to precarity can occur. Such opposition would demand restoration of workers' stolen time engage in a fight for the city challenge the conditions under which aversion to financial risk puts workers into physical danger and foment the refusal of work. We can look to the urban worker centers where this radically democratic politics of precarity is taking root to understand what types of organizations have the potential to wage the fight for time and enable broad mobilization in the face of precarity. worker centers for all working people

## **Labor's Outcasts** Andrew J.

Hazelton, 2022-09-13 In the mid twentieth century corporations consolidated control over agriculture on the backs of Mexican migrant laborers through a guestworker system called the Bracero Program. The National Agricultural Workers Union NAWU attempted to organize these workers but met with utter indifference from the AFL CIO. Andrew J Hazelton examines the NAWU's opposition to the Bracero Program against the backdrop of Mexican migration and the transformation of North American agriculture. His analysis details growers' abuse of the program to undercut organizing efforts the NAWU's subsequent mobilization of reformers concerned by those abuses and grower opposition to any restrictions on worker control. Though the union's organizing efforts failed it nonetheless created effective strategies for pressuring growers and defending workers' rights. These strategies contributed to the abandonment of the Bracero Program in 1964 and set the stage for victories by the United Farm Workers and other movements in the years to come

Their low wage jobs are not included in minimum wage ordinances or campaigns and their work remains unorganized by labor unions. This book of oral histories restores to visibility these workers by telling stories of hardship but also bravery, solidarity and improvisation in California's farm fields. The majority of American produce is picked in California while workers there face wage theft and sexual harassment, pesticide exposure and lack of healthcare. The struggle to find affordable housing and the special risks endured by the undocumented as many as half of all farmworkers. The book also tells the story of a new generation of labor activists who are pressing for a national Bill of Rights for farmworkers.     *Fresh Fruit, Broken Bodies* Seth M. Holmes, Jorge Ramirez-Lopez, 2023-11-28 *Fresh Fruit Broken Bodies* provides an intimate examination of the everyday lives, suffering and resistance of Mexican migrants in our contemporary food system. Seth Holmes, an anthropologist and MD in the mold of Paul Farmer and Didier Fassin, shows how market forces, anti-immigrant sentiment and racism undermine health and health care. Holmes was invited to trek with his companions clandestinely through the desert into Arizona and was jailed with them before they were deported. He lived with Indigenous families in the mountains of Oaxaca and in farm labor camps in the United States, planted and harvested corn, picked strawberries and accompanied sick workers to clinics and hospitals. This embodied anthropology deepens our theoretical understanding of the ways in which social inequities come to be perceived as normal and natural in society and in health care. In a substantive new epilogue, Holmes and Indigenous Oaxacan scholar Jorge Ramirez Lopez provide a current examination of the challenges facing farmworkers and the lives and resistance of the protagonists featured in the book.     *Prevention of HIV/AIDS Among Migrant Workers in Thailand Project (PHAMIT)*

Aphichat Chamrathirong, Wathinee Boonchalaksi, 2009     **Defiant Braceros** Mireya Loza, 2016-09-02 In this book, Mireya Loza sheds new light on the private lives of migrant men who participated in the Bracero Program (1942-1964), a binational agreement between the United States and Mexico that allowed hundreds of thousands of Mexican workers to enter this

country on temporary work permits While this program and the issue of temporary workers has long been politicized on both sides of the border Loza argues that the prevailing romanticized image of braceros as a family oriented productive legal workforce has obscured the real diverse experiences of the workers themselves Focusing on underexplored aspects of workers lives such as their transnational union organizing efforts the sexual economies of both hetero and queer workers and the ethno racial boundaries among Mexican indigenous braceros Loza reveals how these men defied perceived political sexual and racial norms Basing her work on an archive of more than 800 oral histories from the United States and Mexico Loza is the first scholar to carefully differentiate between the experiences of mestizo guest workers and the many Mixtec Zapotec Purhepecha and Mayan laborers In doing so she captures the myriad ways these defiant workers responded to the intense discrimination and exploitation of an unjust system that still persists today **Migrant Labor Report** New Jersey.
