## **Migration The Boundaries Of Equality And Justice:**

*Migration* Bill Jordan, Franck Düvell, 2003      Pregnant on Arrival Eithne Luibhéid, 2013-08-01 State alert as pregnant asylum seekers aim for Ireland Country Being Held Hostage by Con Men Spongers and Those Taking Advantage of the Maternity Residency Policy From 1997 to 2004 headlines such as these dominated Ireland's mainstream media as pregnant immigrants were recast as illegals entering the country to gain legal residency through childbirth As immigration soared Irish media and politicians began to equate this phenomenon with illegal immigration that threatened to destroy the country's social cultural and economic fabric *Pregnant on Arrival* explores how pregnant immigrants were made into paradigmatic figures of illegal immigration as well as the measures this characterization set into motion and the consequences for immigrants and citizens While focusing on Ireland Eithne Luibhéid's analysis illuminates global struggles over the citizenship status of children born to immigrant parents in countries as diverse as the United States Hong Kong and elsewhere *Scholarship on the social construction of the illegal immigrant* calls on histories of colonialism global capitalism racism and exclusionary nation building but has been largely silent on the role of nationalist sexual regimes in determining legal status Eithne Luibhéid turns to queer theory to understand how pregnancy sexuality and immigrants' relationships to prevailing sexual norms affect their chances of being designated as legal or illegal *Pregnant on Arrival* offers unvarnished insight into how categories of immigrant legal status emerge and change how sexual regimes figure prominently in these processes and how efforts to prevent illegal immigration ultimately redefine nationalist sexual norms and associated racial gender economic and geopolitical hierarchies      European Immigration Anna Triandafyllidou, Ruby Gropas, 2016-07-22 Fully updated and containing chapters on the new EU member states and the attempt to form a common EU migration policy this new edition of *European Immigration A Sourcebook* provides a comprehensive overview of the trends and developments in migration in all EU countries With chapters following a common structure to facilitate direct international comparisons it not only examines the internal affairs of each member state but also explores both migratory trends within the EU itself and the implications for European immigration of wider global events including the Arab Spring and the world financial crisis      *International Journal of Contemporary Sociology*, 2003      **Challenging the Borders of Justice in the Age of Migrations** Juan Carlos Velasco, MariaCaterina La Barbera, 2019-04-16 The volume gathers theoretical contributions on human rights and global justice in the context of international migration It addresses the need to reconsider human rights and the theories of justice in connection with the transformation of the social frames of reference that international migrations foster The main goal of this collective volume is to analyze and propose principles of justice that serve to address two main challenges connected to international migrations that are analytically differentiable although inextricably linked in normative terms to better distribute the finite resources of the planet among all its inhabitants and to ensure the recognition of human rights in current migration policies Due to the very nature of the debate on global justice and the implementation of human rights and

migration policies this interdisciplinary volume aims at transcending the academic sphere and appeals to a large public through argumentative reflections *Challenging the Borders of Justice in the Age of Migrations* represents a fresh and timely contribution In a time when national interests are structurally overvalued and borders increasingly strengthened it s a breath of fresh air to read a book in which migration flows are not changed into a threat We simply cannot understand the world around us through the lens of the migration crisis a message the authors of this book have perfectly understood Aimed at a strong link between theories of global justice and policies of border control this timely book combines the normative and empirical to deeply question the way our territorial boundaries are justified Professor Ronald Tinnevelt Radboud University Nijmegen The Netherlands This book is essential reading for those frustrated by the limitations of the dominant ways of thinking about global justice especially in relation to migration By bringing together discussions of global justice cosmopolitan political theory and migration this collection of essays has the potential to transform the way in which we think and debate the critical issues of membership and movement Together they present a critical interdisciplinary approach to international migration human rights and global justice challenging disciplinary borders as well as political ones Professor Phil Cole University of the West of England UK [Refugee Survey Quarterly](#) ,2004 **Migration and Citizenship** Rainer Bauböck,2006 Publisher Description **Asian and Pacific Migration Journal** ,2006 [RSA Journal](#) Royal Society of Arts (Great Britain),2003 [Justice and Authority in Immigration Law](#) Colin Grey,2015-04-23 This book provides a new and powerful account of the demands of justice on immigration law and policy Drawing principally on the work of Adam Smith Immanuel Kant and John Rawls it argues that justice requires states to give priority of admission to the most disadvantaged migrants and to grant some form of citizenship or non oppressive status to those migrants who become integrated It also argues that states must avoid policies of admission and exclusion that can only be implemented through unjust means It therefore refutes the common misconception that justice places no limits on the discretion of states to control immigration

[Encyclopedia of Global Justice](#) Deen K. Chatterjee,2012-01-23 This two volume Encyclopedia of Global Justice published by Springer along with Springer s book series Studies in Global Justice is a major publication venture toward a comprehensive coverage of this timely topic The Encyclopedia is an international interdisciplinary and collaborative project spanning all the relevant areas of scholarship related to issues of global justice and edited and advised by leading scholars from around the world The wide ranging entries present the latest ideas on this complex subject by authors who are at the cutting edge of inquiry The Encyclopedia sets the tone and direction of this increasingly important area of scholarship for years to come The entries number around 500 and consist of essays of 300 to 5000 words The inclusion and length of entries are based on their significance to the topic of global justice regardless of their importance in other areas **Current Publications in Legal and Related Fields** ,2003 [Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur](#) ,2003 **Journal of Economic Literature** ,2003 [Sovereignty in Transition](#) Neil Walker,2003-11-28

Sovereignty in Transition brings together a group of leading scholars from law and cognate disciplines to assess contemporary developments in the framework of ideas and the variety of institutional forms associated with the concept of sovereignty. Sovereignty has been described as the main organising concept of the international society of states one which is traditionally central to the discipline and practice of both constitutional law and of international law. The volume asks to what extent and with what implications this centrality is challenged by contemporary developments that shift authority away from the state to new sub state supra state and non state forms. A particular focus of attention is the European Union and the relationship between the sovereignty traditions of various member states on the one hand and the new claims to authority made on behalf of the European Union itself on the other are examined. The collection also includes contributions from international law legal philosophy legal history political theory political science international relations and theology that seek to examine the state of the sovereignty debate in these disciplines in ways that throw light on the focal constitutional debate in the European Union.

**Immigration under New Labour** Will Somerville, 2007-09-26 Lurid headlines on every aspect of migration have been a consistent feature of the last decade from worries over asylum seekers to concerns about unprecedented economic immigration from Eastern Europe. This book presents the first comprehensive account of government policy on immigration over the last ten years providing an in depth analysis of policy and legislation since Tony Blair and New Labour were first elected. The account begins by placing policy change under Labour in their proper historical context before examining the key policy themes economic migration security integration asylum delivery of the last decade. Through an analysis of such policy themes the author contends that immigration policy has undergone an intense and innovative transformation in the period from May 1997 to May 2007. Arguing that a more plural system of governance exists the author challenges traditional accounts of policy development. By addressing the various influences on immigration policymaking from globalisation the European Union and the law to politics the media and the networks of special interests he seeks to provide a holistic explanation for the transformation of immigration policy. The author concludes with an evaluation of Labour's immigration reforms and whether government policy can be judged a success. The book will be of interest to policymakers academics students studying immigration and readers interested in serious current affairs.

**Chechens in the European Union** Alexander Janda, Norbert Leitner, Mathias Vogl, 2008 *International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences*, 2004

*Encyclopedia of Social Problems* Vincent N. Parrillo, 2008-05-22 Social problems affect everyone. Because so many actual and potential problems confront us it is often difficult to decide which ones affect us most severely. Is it the threat of death or injury during a terrorist attack? Is it the threat caused by industrial pollution that may poison us or destroy our physical environment? Or does quiet but viciously damaging gender age class racial or ethnic discrimination have the most far reaching effect? Do the problems of cities affect us if we live in the suburbs? Do poorer nations problems with overpopulation

affect our quality of life The Encyclopedia of Social Problems offers an interdisciplinary perspective into many social issues that are a continuing concern in our lives whether we confront them on a personal local regional national or global level With more than 600 entries these two volumes cover all of the major theories approaches and contemporary issues in social problems and also provide insight into how social conditions get defined as social problems and the ways different people and organizations view and try to solve them Key Features Provides as comprehensive an approach as possible to this multifaceted field by using experts and scholars from 19 disciplines anthropology biology business chemistry communications criminal justice demography economics education environmental studies geography health history languages political science psychology social work sociology and women s studies Presents a truly international effort with contributors from 17 countries Argentina Australia Canada England France Germany Greece Hong Kong India Ireland Italy Kenya New Zealand Romania Scotland Turkey and the United States Addresses social problems that are fairly new such as computer crimes and identity theft and others that are centuries old such as poverty and prostitution Examines social problems differently from place to place and from one era to another Explains the perspectives and foundations of various social theories and offers different lenses to view the same reality Key Themes Aging and the Life Course Community Culture and Change Crime and Deviance Economics and Work Education Family Gender Inequality and Sexual Orientation Health Housing and Urbanization Politics Power and War Population and Environment Poverty and Social Class Race and Ethnic Relations Social Movements Social Theory Substance Abuse Readers investigating virtually any social problem will find a rich treasure of information and insights in this reference work making it a must have resource for any academic library **The British National**
