within migration studies The work provides a truly interdisciplinary introduction to the topic of migration for those who are new to the subject an opportunity for immigration lawyers and legal scholars to engage Christian theology an opportunity for pastors and Christian theologians to engage law and new insights on key frameworks for scholars who are already committed to the study of migration The Cultures of Economic Migration Tope Omoniyi,2016-03-16 This volume explores the processes of economic migration the social conditions that follow it and the discourses that underlie research into it Reflecting critically on economic migration and on the process of studying and creating knowledge about it the contributors address the question of whether recent enquiries into modernity bring a newer and better comprehension of the nature of dislocation and movement or whether these serve simply to replicate familiar modes of placing people and individuals The book is organized into perspectives in and on specific continents Europe Asia and Africa in order to explore notions regarding economic migration within and across regions as well as towards displacing the Eurocentrism of many studies of migration
