Parenting Manual:

The Truth About Parenting H. Jean Gray, 2015-06-01 The Truth about Parenting A Universal Manual for Parenting is a parenting manual for present and future parents Learning how to be a parent and about the importance of being a parent before we become one makes us less anxious and more enthusiastic about the most important job we will ever have People often want to be good parents but they are not sure of just how to achieve that Most of us are unaware of the principles of life and parenting provided in the book of Proverbs This well written manual is a tool to serve as a step by step guide for learning how to practice effective parenting skills Learning the truth about parenting is necessary This manual addresses solutions to most of our present parenting dilemmas In addition this manual makes us realize the problem and speaks to proven solutions Consequently this truth is long awaited **Never Say Know** Oral Lee Morgan, 2011-03-25

INTRODUCTION To give your sheep or cow a large spacious meadow is the way to control him The Problem Three boys walk into a store to buy their Dad a present They each contribute 10 and buy a 30 dollar gift After they leave the store the owner realizes he overcharged them and gives his cashier 5 to refund the boys The cashier finds the boys just outside the store and gives each 1 for a total of 3 Not being very honest the cashier keeps 2 for himself Since the boys initially paid 10 each and received a refund of 1 each their final payment was 9 each for a total of 27 $9 \times 3 = 27$ This amount of 27 plus the 2 the cashier stole equals 29 $27 + 2 = 29$ Where did the other 1 go from the boys initial payment of 30 $30 - 29 = 1$ Sometimes a problem is made more difficult than it should be because of the way it is perceived presented or misrepresented The problem above is an example Parenting is infinitely harder and should become easier once it is presented and perceived more clearly and the trick is explained This book attempts to more clearly present the problem and explain the trick to parenting Fill the Gap In part the purpose of this book is to fill the gap between scientific research and practical application of that research As will be discussed later it has been scientifically proven that human development is fifty percent dependent on genetics and fifty percent on environment and that a stressful environment caused by No Parenting inhibits brain and body development in children Theory and scientific findings are crucial steps to understanding child development but without practical application is not of much use in the real world I hope the suggestions herein are useful to helping parents rear happy healthy and productive adults for a better world **Mindful Parenting** Susan Bögels, Kathleen Restifo, 2013-09-18
