The Modernization of Fatherhood Ralph LaRossa, 1997 The period between World War I and World War II was an important time in the history of gender relations and of American fatherhood Revealing the surprising extent to which some of yesterday's fathers were involved with their children *The Modernization of Fatherhood* recounts how fatherhood was reshaped during the Machine Age into the configuration we know today LaRossa explains that during the interwar period the image of the father as economic provider pal and male role model all in one became institutionalized Using personal letters and popular magazine and newspaper sources he explores how the social and economic conditions of the Roaring Twenties and the Great Depression a period of technical innovation as well as economic hardship fused these expectations into a cultural ideal With chapters on the U S Children's Bureau the fathercraft movement the magazine industry and the development of Parent's Magazine and the creation of Father's Day this book is a major addition to the growing literature on masculinity and fatherhood

Inventing American Tradition Jack David Eller, 2018-09-15 What really happened on the first Thanksgiving How did a British drinking song become the US national anthem And what makes Superman so darned American Every tradition even the noblest and most cherished has a history none more so than in the United States a nation born with relative indifference if not hostility to the past Most Americans would be surprised to learn just how recent and controversial the origins of their traditions are as well as how those origins are often related to such divisive forces as the trauma of the Civil War or fears for American identity stemming from immigration and socialism In pithy entertaining chapters *Inventing American Tradition* explores a set of beloved traditions spanning political symbols holidays lifestyles and fictional characters everything from the anthem to the American flag blue jeans and Mickey Mouse Shedding light on the individuals who created these traditions and their motivations for promoting them Jack David Eller reveals the murky conflicted confused and contradictory history of emblems

and institutions we very often take to be the bedrock of America What emerges from this sideways take on our most celebrated Americanisms is the realization that all traditions are invented by particular people at particular times for particular reasons and that the process of traditioning is forever ongoing especially in the land of the free Annual Report of the State Board of Education, Together with the ...
