Paris By Metro:

Discover Paris by Metro Anne-Claire Ruel, Aurélie Clair, Catherine Taret, 2012 A unique guide to the legendary Paris Metro that reveals line by line station by station what to see and do to discover Paris like a Parisian *Paris Metro Handbook* Brian Hardy, 1999 **The Paris Metro** Susan L. Plotkin, 2000-12 The metro may be a mere hundred years old but it tells a tale of France twenty times as long The story begins in the fifth century BC when wild Celtic tribes roamed the countryside of Gaul Then Julius Caesar imposed a Roman rule that lasted five hundred years and forced the Celts to settle down All that seems like only yesterday to a Frenchman because those Celts and Romans are close friends to every reader of the French comic book series Asterix Asterix and his fellow Celts live quite happily in a small fortified enclave in Brittany in northwestern France Their idyllic primitive existence is occasionally intruded upon by those nasty Roman conquerors but the Celts always manage to get the best of the Romans despite great odds Alisia Metro Line 4 The Battle of Alisia 52 BC is the oldest event commemorated in the Paris Metro The Celtic warrior Vercingetorix managed to unite competing tribes against the Romans in one last attempt to save Gallic independence It was not an easy task It was difficult to live with let alone lead these autonomous quarrelsome groups Vercingetorix planned to wage hit and run guerrilla warfare to starve the Romans into defeat by destroying the crops in their path as they penetrated deeper into Gaul in pursuit of the pesky Celts In the town of Bourges the local population refused to allow the destruction of their wheat a fatal mistake Caesar descended on the town and confiscated it for his hungry troops With renewed energy the Romans gave chase The Celts retreated to a high plateau called Alisia where they were quickly surrounded by Caesar's forces The table was now turned Caesar built a fortification around Alisia twelve and a half miles in circumference It consisted of a double row of spikes one facing inward and the other outward which prevented both escape and the re provisioning of the rebels The Celts had only a month's worth of provisions but somehow they held out for two by which time the men were famished and exhausted Vercingetorix surrendered Few lives had been lost in battle but countless numbers died of starvation Vercingetorix was imprisoned in Rome where six years later when he was all but forgotten Caesar had him strangled to death Both the Celts who lost and the Romans who won have contributed much to French culture so it's a tricky thing for the French to say whether Alisia was a victory or a defeat One thing is clear in real life the Celts did not always win In the end it was most likely the mountains of horse manure that gave birth to the Paris Metro During the last quarter of the 19th century Paris did not lack the means of transport What it patently lacked was a transportation system There were competing omnibus lines trams trains and private conveyances all overlapping most taking roundabout routes throughout the city hindering one another and certainly hindering business Forty lines of horse drawn omnibuses traversed Paris in 1870 and ten thousand horses were required to pull them The maintenance of the horses ate up fifty percent of the entire company budget Each omnibus held about 20 passengers half of them riding on top of the carriage By the turn of the century the omnibuses carried as many as forty people each still with

many sitting on the carriage roof The roads were made of cobblestones or wood planks or sometimes just hardened mud there were no shock absorbers on the carriages and the stench from the horse manure was overwhelming One hundred million passengers used the omnibuses that year probably half of them holding perfumed handkerchiefs to their noses to ward off the stench

Separated on the Paris Metro Cody Tolmasoff, 2020-10-01 As she pounded on the door of the Metro to let her in the train lurched forward and started to move Running over to look through the window where her younger sister Zoe and cousin Thibault sat alone she yelled go to Thibault's house Watching helplessly the train disappeared into the tunnel Anna Dahlia a middle school girl on a Paris family vacation wanted to prove her independence and show how responsible she could be She never thought it would be this tough While traveling on the Paris Metro with her younger sister and cousin her purse is stolen while boarding a connecting train She is left without directions phone or wallet No one is around to help Will she avoid a panic attack Where will she find help Can she make her way Will her sister and cousin manage on their own This wasn't the vacation she expected One story written as two books told from each sister's perspective In the first book read the story from Anna Dahlia's viewpoint Continue with the second book to increase comprehension add extra details and story variations with the story seen from her sister Zoe's point of view Reading a book twice can dramatically increase reader comprehension However encouraging readers to read a story twice can be tough Providing the same story from another character's point of view bringing a change in perspective and some alternate storylines will excite readers to take a deeper dive into what they have just read

The Engineering Index John Butler Johnson, Henry Harrison Suplee, Johannes H. Cuntz, Charles Buxton Going,1906 [The Engineering Index](#) ,1906 *The Making of Grand Paris* Theresa Enright,2023-09-19 A critical examination of metropolitan planning in Paris the Grand Paris initiative and the building of today s networked global city In 2007 the French government announced the Grand Paris initiative This ambitious project reimagined the Paris region as integrated balanced global sustainable and prosperous Metropolitan solidarity would unite divided populations a new transportation system the Grand Paris Express would connect the affluent city proper with the low income suburbs streamlined institutions would replace fragmented governance structures Grand Paris is more than a redevelopment plan it is a new paradigm for urbanism In this first English language examination of Grand Paris Theresa Enright offers a critical analysis of the early stages of the project considering whether it can achieve its twin goals of economic competitiveness and equality Enright argues that by orienting the city around growth and marketization Grand Paris reproduces the social and spatial hierarchies it sets out to address For example large expenditures for the Grand Paris Express are made not for the public good but to increase the attractiveness of the region to private investors setting off a real estate boom encouraging gentrification and leaving many residents still unable to get from here to there Enright describes Grand Paris as an example of what she calls grand urbanism large scale planning that relies on infrastructural megaprojects to reconfigure urban regions in pursuit of speculative redevelopment Democracy and equality suffer under processes of grand urbanism Given the logic of commodification on which Grand Paris is based these are likely to suffer as the project moves forward
