**Subterranean Cities** David L. Pike,2018-07-05 The underground has been a dominant image of modern life since the late eighteenth century A site of crisis fascination and hidden truth the

underground is a space at once more immediate and more threatening than the ordinary world above In Subterranean Cities David L Pike explores the representation of underground space in the nineteenth and early twentieth centuries a period during which technology and heavy industry transformed urban life The metropolis had long been considered a moral

underworld of iniquity and dissolution As the complex drainage systems underground railways utility tunnels and storage

the contemporary city Writers and artists from Felix Nadar and Charles Baudelaire to Charles Dickens and Alice Meynell Gustave Dor and Victor Hugo George Gissing and Emile Zola and Jules Verne and H G Wells integrated images of the urban

underworld into their portrayals of the anatomy of modern society Illustrated with photographs movie stills prints engravings

Publisher Description **The Paris Metro** Susan L. Plotkin, 2000-12 The metro may be a mere hundred years old but it tells a tale of France twenty times as long. The story begins in the fifth century BC when wild Celtic tribes roamed the countryside of Gaul. Then Julius Caesar imposed a Roman rule that lasted five hundred years and forced the Celts to settle down. All that seems like only yesterday to a Frenchman because those Celts and Romans are close friends to every reader of the French comic book series Asterix. Asterix and his fellow Celts live quite happily in a small fortified enclave in Brittany in northwestern France. Their idyllic primitive existence is occasionally intruded upon by those nasty Roman conquerors but the Celts always manage to get the best of the Romans despite great odds. Al sia M tro Line 4 The Battle of Al sia 52 BC is the oldest event commemorated in the Paris Metro. The Celtic warrior Vercing torix managed to unite competing tribes against the Romans in one last attempt to save Gallic independence. It was not an easy task. It was difficult to live with let alone lead these autonomous quarrelsome groups. Vercing torix planned to wage hit and run guerrilla warfare to starve the Romans into defeat by destroying the crops in their path as they penetrated deeper into Gaul in pursuit of the pesky Celts. In the town of Bourges the local population refused to allow the destruction of their wheat a fatal mistake. Caesar descended on the town and confiscated it for his hungry troops. With renewed energy the Romans gave chase. The Celts retreated to a high plateau called Al sia where they were quickly surrounded by Caesar's forces. The table was now turned. Caesar built a fortification around Al sia twelve and a half miles in circumference. It consisted of a double row of spikes one facing inward and the other outward which prevented both escape and the re-provisioning of the rebels. The Celts had only a month's worth of provisions but somehow they held out for two by which time the men were famished and exhausted. Vercing torix surrendered. Few lives had been lost in battle but countless numbers died of starvation. Vercing torix was imprisoned in Rome where six years later when he was all but forgotten Caesar had him strangled to death. Both the Celts who lost and the Romans who won have contributed much to French culture so it's a tricky thing for the French to say whether Al sia was a victory or a defeat. One thing is clear in real life the Celts did not always win. In the end it was most likely the mountains of horse manure that gave birth to the Paris Metro. During the last quarter of the 19th century Paris did not lack the means of transport. What it patently lacked was a transportation system. There were competing omnibus lines trams trains and private conveyances all overlapping most taking roundabout routes throughout the city hindering one another and certainly hindering business. Forty lines of horse drawn omnibuses traversed Paris in 1870 and ten thousand horses were required to pull them. The maintenance of the horses ate up fifty percent of the entire company budget. Each omnibus held about 20 passengers half of them riding on top of the carriage. By the turn of the century the omnibuses carried as many as forty people each still with many sitting on the carriage roof. The roads were made of cobblestones or wood planks or sometimes just hardened mud. There were no shock absorbers on the carriages and the stench from the horse manure was overwhelming. One hundred

million passengers used the omnibuses that year probably half of them holding perfumed handkerchiefs to their noses to ward off the stench     **Paris Underground** Etta Shiber,2012-10-19 This early work on wartime Europe is both expensive and hard to find in its first edition It details the history and individual experiences during World War II This is a Fascinating work and is highly recommended for anyone interested in European History Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce We are republishing these classic works in affordable high quality modern editions using the original text and artwork     *Paris by Metro* Arnold Delaney,2006-04-01 Not only travelers but Parisians will have the Paris Metro explained by perusing this book in ways they never have before An absolutely essential guide to really knowing Paris observes Robert Cole author of *A Traveller's History of Paris* What was the original name of the Place de la Concorde Why was the Tuileries palace so called and when was it destroyed Who built the Palais Royal Find the answers to these questions and many others in this fascinating new book which gives you the history behind the names of all the Metro stations in Paris Arnold Delaney's text is full of illuminating insights into hidden corners of the history of the world's most elegant city Take Le Kremlin Bicetre an intriguing example of how over many centuries names evolve and become corrupted known for its Bicetre Hospital parts of which date back to the seventeenth century The town's website explains that the Kremlin portion of the name is due to the fact that after Napoleon's retreat from Moscow in 1812 a hospice for his soldiers was set up in the town and the local pub was called Le Sergent du Kremlin Bicetre came about because at the end of the thirteenth century Jean de Pontoise the Bishop of Winchester owned land here The locals had difficulty pronouncing Winchester which became Vincestre and evolved to become Bicetre The text is complemented by colour photography especially commissioned for the book which takes a slightly idiosyncratic look at the city as well as giving a taste of the quintessential design and feel of the Metro system     [The Engineering Index](#) John Butler Johnson, Henry Harrison Suplee,Johannes H.
