succinctly the precedents and practices established by the park ranger were all important in shaping the protection principles which characterize the present day Ranger Department In the author s own words the purpose in writing this book is to leave permanent records of the First Rangers who contributed so much during their long years of service and to bridge the gap from the military to the civilian protection and administration of Yosemite National Park During the years of my service in Yosemite from 1918 to 1956 I found there was very little information on the lives and activities of the First Rangers Some of these men were still in service when I became a Ranger However many had died and their records were few and scattered In the old days one would hear the remark It is a privilege to work for the Park Service It was a privilege for me to serve thirty eight years in the Yosemite Ranger Service to be associated with the many fine Park people and the guardians and administrators of the National Park Service whose principal purpose was to serve loyally the cause of the parks

A special breed of adventurer the first forest rangers were among the explorers mountain men lawmen and pioneers who made America First Rangers details the exploits of two of these men told mostly in their own words Written in the saddle while riding along the trail or on a log at camp or at a table in a dimly lit cabin these stories bring to life a bygone era Their stories to paraphrase Don Bunker Liebig s neighbor and friend will never happen again to anyone for the conditions are not here anymore to produce them writes author C W Guthrie Part journal written by the men themselves and part carefully researched biography illustrated by fascinating historic photos and documents First Rangers celebrates two men who were as Guthrie puts it heroes of their era Liebig as the first forest ranger in what became Glacier National Park built the first ranger station patrolled over a half million acres led numerous wildfire fights and saved at least three lives that we know about Herrig who met Theodore Roosevelt while working as a horse wrangler in Medora North Dakota and later on at Roosevelt s ranch in the Badlands joined the Rough Riders and was with Roosevelt in the 1898 Battle of San Juan Hill the decisive battle of the Spanish American War Frank Liebig and Fred Herrig s job was to stop wildfires timber thieves squatters and poachers Supremely suited to their work Frank and Fred were skilled woodsmen natural leaders and men of rare courage and integrity who entered their careers at a time when becoming a forest ranger was simply to be handed a badge a rifle some ammunition a crosscut saw and paper to write reports on as your told Go to it and good luck According to Guthrie the book is about more than the heroics and adventures of these brave and forthright men It is also a love story of several kinds It is of course about Liebig and Herrig s love of their adopted country of a good challenge of the wilderness and of the Forest Service they served But ultimately it portrays their love of the women they chose to share their lives in this wild place and the love of the children to whom they passed on their hard won knowledge of and abiding affection for the wilds of Glacier country Their legacy lives on in their families in the park s protected wild lands and in the ethos of today s forest and park rangers
