Announcing the Feast Jason McFarland,2012-02-01 How does the entrance song of the Mass function within the Roman Rite What can it express theologically What should Roman Catholics sing at the beginning of Mass In this groundbreaking study Jason McFarland answers these and other important questions by exploring the history and theology of the entrance song of Mass After a careful history of the entrance song he investigates its place in church documents He proposes several models of the entrance song for liturgical celebration today Finally he offers a skillful theological analysis of the entrance song genre focusing on the song for the Holy Thursday Evening Mass arguably the most important entrance song of the entire liturgical year Announcing the Feast provides the most comprehensive treatment of the Roman Rite entrance song to date It is unique in that it bridges the disciplines of liturgical studies musicology and theological method      *Creativity and Captivity* Uday Balasundaram,2021-12-02 Ultimately what really does it mean to be creative How can we see ourselves as participating in the creativity of God for mission All people are creative Sadly however for many creativity is stifled and remains stunted due to several reasons social economic political cultural and even spiritual This study explores how ICMs indigenous cosmopolitan musicians negotiate their creativity amid the liminal spaces they occupy as they share in the creativity of God for mission through their music But what exactly does it mean to share in the creativity of God for mission Contrary to popular notion ICMs evidence that creativity is not merely innovation it is not a psychological metric for

measuring human potential it is certainly not the icing on the cake reserved for a few so called creatives or artists Rather theological creativity is participation in the creatio Dei it is theologically prior to mission As a missiological framework creatio Dei is understood here in terms of creative being creative construction design and creative performance Hopefully this book can help clarify and expand our understanding of what it means to be truly creative and thereby with the help of the Creator put into practice principles of theological creativity as we share in the creativity of God in the world with others
