Participation For Development A Resource On Strategy Programmes And Procedures:

Strategies, Structures, and Processes for Network and Resources Management in Industrial Parks Tiina Salonen, 2010 In the recent years the number of industrial parks has grown rapidly worldwide driven by economic policies and industrial restructuring The high resource consumption and prices as well as stringent environmental policies and laws have pushed the strategic importance of efficient resources management Due to the proximity of companies industrial parks offer potential for the development of interorganizational resource exchanges in terms of energy and waste infrastructure sharing and joint services Utilizing this potential enhances the resource efficiency and added value of companies while often reducing their environmental impacts Efficient management of resources in industrial parks requires an appropriate management concept However the research and literature on the management of industrial parks is very limited As a solution the author introduces the concept for integrated resources management The theoretical status quo of the concept is studied from the perspective of industrial ecology with the conclusion that the approach lacks a strategic management dimension To tackle the problem the author draws upon the strategic management and organizational theories as well as the approaches of network and environmental management The empirical insights into the concept are sought by analyzing applied practices to network and resources management in industrial parks The case studies comprise representative examples of successful industrial restructuring from Germany such as DOW ValuePark R and Chemical Industrial Park Marl and showcases of China s economic policy such as Shanghai Chemical Industry Park and Tianjin Economic and Technological Development Area A reader will find in this book a sound theoretical framework to accommodate further research and practical decision support to manage resource problems characterized by conflicting stakeholder interests The DAC Guidelines Strategies for Sustainable Development OECD, 2001-11-23 This publication provides policy guidance on good practice in developing and implementing strategies for sustainable development *Proceedings* International Union for Conservation of Nature and Natural Resources. General Assembly, 1994 Sustainable Development Strategies Barry Dalal-Clayton, Stephen Bass, 2012-09-10 This book is a cornerstone resource for a wide range of organizations and individuals concerned with sustainable development at national or local levels as well as for international organizations concerned with supporting such development Whilst the focus is on integrated strategies for sustainable development the approaches and methods covered are equally relevant to poverty reduction environmental and sectoral strategies programme development and review Agenda 21 called for all countries to develop sustainable development strategies For such strategies to be effective there needs to be a real commitment In every country government at all levels the private sector and civil society must work together in a true partnership in transparent ways which enable genuine stakeholder participation The necessary mechanisms and processes need to be coordinated to enable continuous learning and improvement This resource book provides flexible non prescriptive guidance on how to develop assess and implement national sustainable development strategies It sets out principles and

ideas on process and methods and suggests how these can be used It is based on an analysis of past and current practice drawing directly from experience in both developed and developing countries Following a discussion of the nature and challenges of sustainable development and the need for strategic responses to them the heart of the book covers the main tasks in strategy processes Individual chapters offer a rich range of guidance ideas and case studies

Participatory Approaches to Research and Development in IIED Nazneen Kanji, Laura Greenwood, 2001

Stakeholder Dialogues on Sustainable Development Strategies D. Barry Dalal-Clayton, Krystyna Swiderska, Stephen Bass, 2002 This book provides a set of case studies summarising recent developing country experiences of developing and implementing national sustainable development strategies NSDSs These are based directly on the work of country teams that facilitated multi stakeholder dialogues on NSDSs Drawing also from this work and from broader international experience the early chapters explore new thinking and provide key lessons about the development implementation and monitoring of NSDSs and explore how the continuous improvement approach now advocated for NSDSs can link their development and implementation with the needs and opportunities for research The book is a practical complement to the Resource Book on Sustainable Development Strategies isn 1668215 which provides guidance on how to develop assess and implement such strategies
