Participatory Analysis Monitoring And Evaluation For Fishing Communities:

Participatory Analysis, Monitoring and Evaluation for Fishing Communities R. A. Maine, Barbara Cam, D'Arcy Davis Case, 1996-01-01 While there are many manuals available on participatory rapid appraisal approaches to monitoring and evaluation there were none easily used by field officers attempting to aid and encourage fishing community level participation in monitoring and evaluating activities of projects and programmes in rural fishing communities This manual is prepared with easily followed instructions for 26 participatory monitoring tools to allow use by both local field staff acting as facilitators and directly by community members engaged in the evaluation process *Small-scale fisheries and the human right to adequate food* Food and Agriculture Organization of the United Nations, 2021-06-04 The adoption of Voluntary Guidelines to Support the Progressive Realization of the Right to Adequate Food in the Context of National Food Security Right to Food Guidelines in 2004 and the Voluntary Guidelines for Securing Sustainable Small Scale Fisheries in the Context of Food Security and Poverty Eradication SSF Guidelines in 2014 were two major achievements in the effort to ensure food security and nutrition This handbook has been developed to support the joint implementation of the SSF Guidelines and the Right to Food Guidelines through an integrated approach and to increase policy coherence and uptake The document provides an overview of the contents of these voluntary guidelines and identifies potential synergies It also explains the human rights based approach and discusses some crucial areas with special attention to the specific roles and responsibilities of key actors This document is primarily directed at those involved in the integration of the SSF Guidelines and the Right to Food Guidelines into national policies and development programmes targeting the small scale fisheries sector in the context of food security and nutrition However it can be equally interesting to other stakeholders who take part in the implementation of the provisions of both instruments in their day to day activities and who are concerned with the sustainability of the small scale fisheries sector The adoption of the Right to Food Guidelines in 2004 and the SSF Guidelines in 2014 were two major achievements in the effort to ensure food security and nutrition *Guidelines for designing data collection and sharing systems for co-managed fisheries. 1. Practical guide* Ashley S. Halls, 2005 **Fishery Co-Management** Robert S. Pomeroy, Rebecca Rivera-Guieb, 2006 During the last decade there has been a shift in the governance and management of fisheries to a broader approach that recognizes the participation of fishers local stewardship and shared decision making Through this process fishers are empowered to become active members of the management team balancing rights and responsibilities and working in partnership with government This approach is called co management This handbook describes the process of community based co management from its beginning through implementation to turnover to the community It provides ideas methods techniques activities checklists examples questions and indicators for the planning and implementing of a process of community based co management It focuses on small scale fisheries freshwater floodplain estuarine or marine in developing countries but is also relevant to small scale
