Partisan Review, 1978      *Partisan Review*, 1970      **Partisan Review**, 1965      *The Conservative Turn* Michael Kimmage, 2009-07-31 The *Conservative Turn* tells the story of postwar America's political evolution through two fascinating figures Lionel Trilling and Whittaker Chambers who went on to intellectual prominence sharing the questions, crises and challenges of their generation. Kimmage argues that the divergent careers of these two men exemplify important developments in postwar American politics: the emergence of modern conservatism and the rise of moderate liberalism.

**Prodigal Sons** Alexander Bloom, 1986-04-17 A herd of independent minds. Harold Rosenberg once labelled his fellow intellectuals. They were and are as this book shows a special and fascinating group including literary critics like Lionel Trilling, Alfred Kazin, Irving Howe, Leslie Fiedler, Philip Rahv and William Phillips; social scientists like Nathan Glazer; art critics and historians Clement Greenberg, Harold Rosenberg and Meyer Schapiro; novelist Saul Bellow and political journalists Irving Kristol and Norman Podhoretz. Their story winds through nearly all of the crucial intellectual and political events of the last decades as well as through the major academic institutions of the nation and the editorial boards of such important journals as *Partisan Review*, *Commentary*, *Dissent*, *The Public Interest* and *The New York Review of Books*. So deeply entrenched in our intellectual establishment are these people that it's easy to forget that most grew up on the edge of American society: poor Jewish children of immigrants. *Prodigal Sons* retraces their common past from their New York City ghetto upbringing and education at Columbia and City College through their radicalization in the 30s to their preeminence in the postwar literary and academic world. The book examines their youthful efforts to ignore their Jewish heritage and their later rediscovery of this heritage in the wake of the Holocaust. It shows how they moved toward the liberal center during the Cold War and how the group fragmented in the 1960s when some turned toward the right, becoming key figures in the Neo-Conservative movement of the 1970s and 80s. As Bloom points out, there is no single typical New York intellectual nor did they share all their ideas. This book is concerned with how the community came to be formed and what it thought important, how and why it moved and changed and why it ultimately came undone. We learn some of the ways in which intellectuals function and justify their own places and a great deal about the political and cultural landscape over which New York intellectuals passed. A fascinating portrait of New York intellectual life over the past half century. Based on interviews with many of the leading figures and 10 years of extensive research. Takes us behind the scenes at *Commentary*, *Partisan Review*, *The Public Interest* and other influential publications.      *Political Correctness* Richard Feldstein, 1997      **The Oxford Critical and Cultural History of Modernist Magazines** Peter Brooker, Andrew Thacker, 2009 This volume contains 44 original essays on the role of periodicals in the United States and Canada. Over 120 magazines are discussed by expert contributors, completely reshaping our understanding of the construction and emergence of modernism.      **Creating American Civilization** David R.
