Partition Omnibus With An Introduction By Mushirul Hasan:

Witnessing Partition Tarun K. Saint, 2019-08-13 This book interrogates representations of literary motifs and narratives of the Partition of India. Delving into the writings of Khushwant Singh, Balachandra Rajan, Attia Hosain, Abdullah Hussein, Rahi Masoom Raza, and Anita Desai among many others, it highlights the modes of fictive testimony that sought to articulate the inarticulate experiences of trauma and violence of loss and longing and of diaspora and displacement. The author discusses representational techniques and formal innovations in writing across three generations of twentieth-century writers in India and Pakistan, invoking theoretical debates on history, memory, witnessing, and trauma. With a new afterword, the second edition of this volume draws attention to recent developments in Partition studies and sheds new light on ongoing debates about an event that still casts a shadow on contemporary South Asian society and culture. A key text, this is essential reading for scholars, researchers, and students of literary criticism, South Asian studies, cultural studies, and modern history.

Postmodern Gandhi and Other Essays Lloyd I. Rudolph, Susanne Hoeber Rudolph, 2010-07-15 Gandhi with his loincloth and walking stick seems an unlikely advocate of postmodernism. But in *Postmodern Gandhi*, Lloyd and Susanne Rudolph portray him as just that in eight thought-provoking essays that aim to correct the common association of Gandhi with traditionalism. Combining core sections of their influential book *Gandhi: The Traditional Roots of Charisma* with substantial new material, the Rudolphs reveal here that Gandhi was able to revitalize tradition while simultaneously breaking with some of its entrenched values and practices. Exploring his influence both in India and abroad, they tell the story of how in London the young activist was shaped by the antimodern other West of Ruskin, Tolstoy, and Thoreau, and how a generation later a mature Gandhi's thought and action challenged modernity's hegemony. Moreover, the Rudolphs argue that Gandhi's critique of modern civilization in his 1909 book *Hind Swaraj* was an opening salvo of the postmodern era and that his theory and practice of nonviolent collective action, satyagraha, articulate and exemplify a postmodern understanding of situational truth. This radical interpretation of Gandhi's life will appeal to anyone who wants to understand Gandhi's relevance in this century as well as students and scholars of politics, history, charismatic leadership, and postcolonialism.

India Andrew Robinson, 2025-05-13 This concise history tells India's unfolding story from the ancient Hindu dynasties to the coming of Islam, from the Mughal Empire to the present day, with a new preface and postscript. Throughout its long history, India has signified many things. To pilgrims from ancient China, India was the birthplace of the Buddha; to Alexander the Great, it was a land of philosophers and indomitable elephantine armies. At the height of the Mughal Empire in 1700, India meant wealth, boasting nearly 25 percent of the world economy, but then under British rule its economy declined. In the nineteenth century, India's identity continued to evolve, defined by stark contrasts of extravagant wealth and crippling poverty, symbolized by the Taj Mahal and devastating famines, maharajas and untouchables. At the same time, the country was celebrated for its rich spirituality, from the many gods of Hinduism and Sufi saints to Buddhist philosophy, with towering figures like Mahatma

Gandhi and Rabindranath Tagore shaping its legacy Andrew Robinson incisively distills India's many incarnations from the remarkably advanced cities of the early Indus Valley to the world's largest democracy Anyone curious about its past present or future will find this a fascinating introduction **The Book Review**, 2003 Re-Presenting Feminist Methodologies Kalpana Kannabiran, Padmini Swaminathan, 2017-03-16 This book tracks the trajectory of gender in the social sciences and humanities through an exploration of the challenges and contradictions that confront contemporary feminist analysis as well as future directions Drawing on research in India the essays in the volume engage with the subject in imaginative ways each one going beyond documenting the persistence of gender inequality instead raising new questions and dilemmas while unravelling the complexities of the terrain They also interrogate extant knowledge that has constructed women as agentless over the years incapable of contesting or transforming social orders by taking a close look at gendered decision making processes and outcomes sex for pleasure health care practices content and context of formal schooling or the developmental state that mainstreams gender Do existing feminist methodologies enable the understanding of emerging themes as online sexual politics transnational surrogacy or masculinist anti feminist sensibilities The feminist methodologies delineated here will provide readers with a toolkit to assess the criticality of gender as well as its nuances The work foregrounds the importance of intersectionality and builds a case for context specific articulations of gender and societies that destabilize binary universals This volume will be useful to scholars and researchers across the disciplines of the social sciences and humanities especially gender studies women's studies feminism research methodology education sociology political science and public policy **Moderate Or Militant** Mushirul Hasan, 2008-03-20 Moderate or Militant argues that Indian Muslims have been misunderstood both by the nationalist discourse and the West Using seminal texts on modern Islam and the writings of modern Indian Muslim thinkers Mushirul Hasan discusses the pluralism of Indian Muslims and the importance of strengthening secularism in India **The Partition Omnibus** David Page, 2002 Finally and as a first hand account based on personal observation and the reports of a government fact finding organization Stern Reckoning documents in great detail the riots massacres casualties and political occurrences that led to the Partition The narrative carries an immediacy a documentary predilection and biases that are both interesting and unavailable in later works on the same period **BOOK JACKET** **The Muslims of India** Abdul Gafoor Abdul Majeed Noorani, 2003 This book provides an interesting mix of documents highlighting the history of Muslim participation in Indian politics from pre independence era to the recent times discussing how they have adjusted to the new order after partition and independence **Tabish Khair** Cristina M.
