Old West The Ranchers

G Psacharopoulos

Old West The Ranchers:

The Ranchers Ogden Tanner, 1977-01-01 Describes in text and illustrations the development of large ranches in the western plains the impact of these establishments on the economy of the area their organization and some famous ranches and their owners *Life on the Ranch* Bobbie Kalman, 1999 Are you ready for some outriding and quirt making Crabtree's new book *Life on the Ranch* takes a look at a large cattle ranch and features the various jobs of the hired hands the rancher's family and the important role played by women *The Cattle Kings* Lewis Atherton, 2019-02-01 The new image of the cattle country that emerges from Atherton's pages is no less romantic than the prior stereotype he writes vividly Chicago Tribune Cowboys gunslingers and superpowered marshals dominate fictionalized accounts of the American West but they were minor figures in the true history of the region In *The Cattle Kings* Lewis Atherton restores the leading role to the cattlemen the genuine adventurers who opened the plains built empires and brought prosperity law and order to the West This classic history of the West tells the true stories of rugged cattlemen like Charles Goodnight Shanghai Pierce the Lang family the Marquis de Mores and Richard King who were attracted by the challenge of the frontier and the astounding economic opportunities it offered Self reliant and progressive these young individualists revolutionized ranching The new industry transformed the West bringing law and order to infamous sin towns like Abilene and Dodge City and leaving an indelible mark on America's national history and character Atherton dramatically recreates the realities and economics of everyday life on the ranches including the role of women attitudes toward education and religion and the philosophy of the cattle region Now with an updated foreword by Western historian Timothy Lehman this new edition of a beloved classic reveals the true heroes of the legendary cattle kingdoms that created the West Containing little glamour and much neglected history this excellent book will appeal to students of the West Old and New and to addicts of history who prefer fact to fireworks it belongs in all comprehensive collections of Western Americana *Kirkus Reviews* *Historic Ranches of the Old West* Bill O'Neal, 1997 A number of ranch headquarters still serve their original function others are museums or guest ranches This book offers a visit back to a romantic and fascinating era *The Old West in Fact and Film* Jeremy Agnew, 2012-11-15 For many years movie audiences have carried on a love affair with the American West believing Westerns are escapist entertainment of the best kind harkening back to the days of the frontier This work compares the reality of the Old West to its portrayal in movies taking an historical approach to its consideration of the cowboys Indians gunmen lawmen and others who populated the Old West in real life and on the silver screen Starting with the Westerns of the early 1900s it follows the evolution in look style and content as the films matured from short vignettes of good versus bad into modern plots *The Old West*, 1967 **Wild West Shows** Paul Reddin, 1999 The Wild West a term that conjures up pictures of wagon trains unspoiled prairies Indians rough n ready cowboys roundups and buffalo herds Where did this collection of images come from Paul Reddin exposes the mythology of the American frontier as a carefully crafted product of the Wild West show Focusing

on such pivotal figures as George Catlin Buffalo Bill Cody and Tom Mix Reddin traces the rise and fall of a popular entertainment shaped out of the raw material of America Buffalo Bill and other entertainers capitalized on public fascination with the danger heroism and courage associated with the frontier by continually modifying their presentation of the West to suit their audiences Thus the Wild West show contrary to its own claims of accuracy and authenticity was highly selective in its representations of the West as well as widely influential in shaping the public image of life on the Great Plains A uniquely American entertainment colorful energetic unabashed and as Reddin demonstrates self made the Wild West show exerted an appeal that was all but irresistible to a public hovering uncertainly between industrial progress and nostalgia for a romanticized past

Ranchers: The Old West Ogden Tanner,1977 **On the Road Again** William Wyckoff,2011-10-17 In *On the Road Again* William Wyckoff explores Montana's changing physical and cultural landscape by pairing photographs taken by state highway engineers in the 1920s and 1930s with photographs taken at the same sites today The older photographs preserved in the archives of the Montana Historical Society were intended to document the expenditure of federal highway funds Because it is nearly impossible to photograph a road without also photographing the landscape through which that road passes these images contain a wealth of information about the state's environment during the early decades of the twentieth century To highlight landscape changes and continuities over more than eighty years Wyckoff chose fifty eight documented locations and traveled to each to photograph the exact same view The pairs of old and new photos and accompanying interpretive essays presented here tell a vivid story of physical cultural and economic change Wyckoff has grouped his selections to cover a fairly even mix of views from the eastern and western parts of the state including a wide assortment of land use settings and rural and urban landscapes The photo pairs are organized in thirteen visual themes such as forested areas open spaces and sacred spaces which parallel landscape change across the entire American West A close thoughtful look at these photographs reveals how crops fences trees and houses shape the everyday landscape both in the first quarter of the twentieth century and in the present The photographs offer an intimate view into Montana into how Montana has changed in the past eighty years and how it may continue to change in the twenty first century This is a book that will captivate readers who have or hope to have a tie to the Montana countryside whether as resident or visitor Regional and agricultural historians geographers and geologists and rural and urban planners will all find it fascinating

Fodor's Old West Eugene Fodor,1976 *Red Lodge and the Mythic West* Bonnie Christensen,2002 Tracing the story of Red Lodge from the 1880s to the present Christensen tells how a mining town managed to endure the vagaries of the West's unpredictable extractive industries economy She connects Red Lodge to a myriad of larger events and historical forces to show how national and regional influences have contributed to the development of local identities exploring how and why westerners first rejected and then embraced western images and how ethnicity wilderness and historic preservation became part of the identity that defined one town **BOOK JACKET** *The Ranchers* Stan Steiner,1980 For more than thirty years Stan

Steiner has been wandering up and down the dusty back roads of the American West listening to descendants of the pioneers recall how they lived out this century on the frontier These old homesteaders have maintained their faith in a long gone rural America an America in which they had to make do with their wit their ingenuity the work of their hands their individualism their independence Among them are the Skinner family six generations of which have been born in the Jordan Valley of eastern Oregon on a ranch that was acquired before Oregon became a state Boyd Charter whose father rode with Butch Cassidy and the Sundance Kid and who brought a St Louis girl from finishing school to a log house in the Bull Mountains of Montana Rita and Janaloo Hill mother and daughter who can be found in the general store of the New Mexico ghost town they own Tug and Ruth Pettit who may have been the last Americans to cross the plains in a covered wagon in 1932 These proud and rugged people talk about cooking without fire about learning the secrets of dry farming about struggling against storm and drought and about how they came to respect the life around them and to cherish the land The Ranchers is full of the richness of western storytelling a book that is both a contribution to the history of the West and a faithful portrait of remarkable men and women living a true American experience Book jacket *Halff of Texas* Patrick Dearen,2000 Mayer Halff immigrated to Texas as a fourteen year old got his start as a foot peddler and eventually controlled a vast cattle empire Throughout his life he was at ease whether dining with a U A president at a plush metropolitan banquet or squatting across a campfire from a dirt streaked cowboy in some forsaken cow camp One of those cowhands Bob Beverly perhaps best described Halff's spirit He was a pioneer and always built for the future He was the kind that made this the greatest republic the world has ever known I take my hat off to him and his kind **Montana Wild Life** Montana Fish and Game Commission,1928 *Time* Briton Hadden,Henry Robinson Luce,1930 Reels for 1973 include Time index 1973 *Forests Under Fire* Christopher J. Huggard,Arthur R. G—mez,2001-03 A collection of writings on the environmental crisis of the Southwestern forests by historians specializing in either the environment or the Southwest criticizing forest management practices devoted to exploiting the forest for timber grazing and recreation with insufficient regard for ecological balance

Pioneers of the Old West Virginia Hopkins,1988 Depicts everyday life and special events for settlers in the American West
Forum and Century ,1930 **Grade Teacher** ,1928 *The Field Illustrated* A. H. Godfrey,Alexander Henry Waddell,1927
