Ole Doc Methuselah:

Ole Doc Methuselah L. Ron Hubbard,1992-01-01 If you love Star Trek you will love Ole Doc Methuselah He s renowned throughout the universe a star among stars Ole Doc Methuselah is his name and saving the universe is his game He journeys with his bag of tricks to the far corners of the cosmos cutting out the corruption and cruelty and containing the warped psychology plaguing mankind So if you re looking for an adventure to remember this is just what the doctor ordered Classic adventures by a classic writer Roger Zelazny **Ole Doc Methuselah** Brenda Jackson,Penguin Books Staff,Ronald L McDonald,1972-08-01 Ole Doc Methuselah L. Ron (La Fayette Ron) Hubbard,1972 OLE DOC METHUSELAH. Ron L. Hubbard,1992 *Ole Doc Methuselah Series* La Fayette Ron Hubbard,1997 *Ole Doc Methuselah (Audio)*. (La Fayette Ron), . Hubbard,1997 **Scientology in Popular Culture** Stephen A. Kent,Susan Raine,2017-07-14 This multidisciplinary study of Scientology examines the organization and the controversies around it through the lens of popular culture referencing movies television print and the Internet an unusual perspective that will engage a wide range of readers and researchers For more than 60 years Scientology has claimed alternative religious status with a significant number of followers despite its portrayals in popular culture domains as being bizarre What are the reasons for the vital connections between Scientology and popular culture that help to maintain or challenge it as an influential belief system This book is the first academic treatment of Scientology that examines the movement in a popular culture context from the perspective of several Western countries It documents how the attention paid to Scientology by high profile celebrities and its mention in movies television and print as well as on the Internet results in millions of people being aware of the organization to the religious organization s benefit and detriment The book leads with a background on Scientology and a discussion of science fiction concepts pulps and movies The next section examines Scientology s ongoing relationship with the Hollywood elite including the group s use of celebrities in its drug rehabilitation program and explores movies and television shows that contain Scientology themes or comedic references Readers will learn about how the Internet and the mainstream media of the United States as well as of Australia Germany and the UK have regarded Scientology The final section investigates the music and art of Scientology Handbook of Scientology James R. Lewis,2017-01-05 The Handbook of Scientology brings together a collection of fresh studies of the most persistently controversial of all contemporary New Religions In recent years increasing scholarly attention has been directed at the Church of Scientology resulting in a small tsunami of new scholarship We have finally reached a point in time where a book on Scientology need not restrict itself to basics Thus for example the historical chapters in the present volume are not really aimed at providing elementary facts on Scientology s background but rather focus on understanding how the Church of Scientology developed over the years In short the Handbook of Scientology will provide a wealth of new information on a topic that one might otherwise have thought exhausted Contributors are Matthew Charet Dorte Refslund Christensen Carole M Cusack Bernard Doherty Marco Frenschkowski Liselotte Frisk Kjersti

Urban,2013-02-24 Scientology s long and complex journey to recognition as a religion Scientology is one of the wealthiest and most powerful new religions to emerge in the past century To its detractors L Ron Hubbard s space age mysticism is a moneymaking scam and sinister brainwashing cult But to its adherents it is humanity s brightest hope Few religious movements have been subject to public scrutiny like Scientology yet much of what is written about the church is sensationalist and inaccurate Here for the first time is the story of Scientology s protracted and turbulent journey to recognition as a religion in the postwar American landscape Hugh Urban tells the real story of Scientology from its cold war era beginnings in the 1950s to its prominence today as the religion of Hollywood s celebrity elite Urban paints a vivid portrait of Hubbard the enigmatic founder who once commanded his own private fleet and an intelligence apparatus rivaling that of the U S government One FBI agent described him as a mental case but to his followers he is the man who solved the riddle of the human mind Urban details Scientology s decades long war with the IRS which ended with the church winning tax exempt status as a religion the rancorous cult wars of the 1970s and 1980s as well as the latest challenges confronting Scientology from attacks by the Internet group Anonymous to the church s efforts to suppress the online dissemination of its esoteric teachings The Church of Scientology demonstrates how Scientology has reflected the broader anxieties and obsessions of postwar America and raises profound questions about how religion is defined and who gets to define it *Future and Fantastic Worlds* Sheldon Jaffery,1987-01-01 Future and Fantastic Worlds embodies an unusual approach to the field of bibliographic research including over 700 annotations of every DAW book published through mid 1987 with indexes by author artist and title providing a massive guide to modern SF writers and their works with much background data Interspersed throughout the book are numerous wry irreverent and amusing observations offered by the late and highly respected researcher in this extremely valuable genre tool **The Magazine of Fantasy and Science Fiction** Anthony Boucher,J. Francis McComas,1992 **The Cambridge Companion to Hippocrates** Peter E. Pormann,2018-11-08 Hippocrates is a towering figure in Greek medicine Dubbed the father of medicine he has inspired generations of physicians over millennia in both the East and West Despite this little is known about him and scholars have long debated his relationship to the works attributed to him in the so called Hippocratic Corpus although it is undisputed that many of the works within it represent milestones in the development of Western medicine In this Companion an international team of authors introduces major themes in Hippocratic studies ranging from textual criticism and the Hippocratic question to problems such as aetiology physiology and nosology Emphasis is given to the afterlife of Hippocrates from Late Antiquity to the modern period Hippocrates had as much relevance in the fifth century BC Greek world as in the medieval Islamic world
