Koolhaas Office for Metropolitan Architecture In 1989 the Office for Metropolitan Architecture developed a new architectural typology helmed by the Dutch architecture firm s founder Rem Koolhaas born 1944 The goal of this endeavor was to enact a project without form as part of an international competition to build a new national library in France In the OMA laboratory in Rotterdam experts from multiple different disciplines were able to work on this challenge at the same time Within this experimental multidisciplinary approach to design the mechanisms of project development and knowledge acquisition merge into increasingly abstract systems of representation The focus of the final design was the idea of the void an absence of form the solid square building would have gaps carved out of its exterior to represent the occasional rifts in memory inherent in human experience This volume presents the planning progress and legacy of the project drawing from interviews with various participants conducted by Holger Schurk The publication illuminates the hybrid processes of production and representation as part of the development of OMA s design for the Tr s Grande Biblioth que in Paris These are documented in numerous previously unpublished sketches drawings and photographs as well as sequences of video stills   *Dutchtown* Michelle Provoost,B. W. Colenbrander,Floris Alkemade,1999 Almere the Netherlands newest town took a significant step towards maturity with its recently completed city center designed by Rem Koolhaas leader of the Office for Metropolitan Architecture O M A the Netherlands most internationally oriented architectural practice Compared to such high profile O M A achievements as Euralille and Generic City Koolhaas scheme for Almere is an interesting departure as it succeeds both in the contexts of old Dutch towns and contemporary metropolitan design The scheme for the Almere city center shows Koolhaas at work in the context of the old Dutch townscape and the dynamic of the polder model it shows how O M A absorbed Dutchness and still stuck to its principles In addition to documenting the city center design this book explores the design process involving the city the property developers and the project leaders Also included are the designs made to flesh out the master plan amongst them a theater by Kazuyo Sejima housing by Claus Kaan and Frits van Dongen William Alsop s pop rock center Benthem Crouwel s business center O M A s parking garages and cinema and the public space design by DS Landschapsarchitecten   **OMA - Rem Koolhaas** Jacques Lucan,Office for Metropolitan Architecture (London),Rem Koolhaas,1991   **Rem Koolhaas as Scriptwriter** Helena Huber-Doudová,2023-10-30 This book is the first survey of a new field in architecture theory script writing Rem Koolhaas as Scriptwriter explores the intersection of architecture film and text using the example of the working method of scriptwriter Rem Koolhaas and the Office for Metropolitan Architecture OMA This book argues that Koolhaas formulates his approach to architecture on the basis of the written sketch or script and questions its transformations into built environment in the oeuvre of OMA Divided into two parts the first part is a theoretical outline that explores the notion of scriptwriting in film It provides in depth insights into the definition and historical evolution of the script as a blueprint Hollywood script avant garde script storyboard the relation to auteur theory and the difference between the script and scenario It surveys the first original script for the Exodus of the Voluntary Prisoners of Architecture

The second part offers a unique perspective on the urban development of West Berlin in which Koolhaas created a metropolitan script or blueprint that spans the period 1971 1989 from his first visit to Berlin to the fall of the Berlin Wall This book will be of interest to researchers and students of architectural theory urban history and film studies **REM KOOLHAAS/OMA** AUROPA CUITO, *OMA/Rem Koolhaas* Christophe van Gerrewey,2019-10-21 The most incisive texts on Rem Koolhaas OMA The activities of Rem Koolhaas and his staff were widely discussed even before the foundation of the Office for Metropolitan Architecture in 1975 Today many contributions on the work of OMA can be found in the international architectural press including Koolhaas own writings The book contains about 150 selected texts interviews feature articles essays lead articles reviews letters introductions appraisals and competition reports that have been compiled for the first time This compilation not only provides a fresh and critical view of the oeuvre of one the most important contemporary architects but also represents an account of the debate on architectural and urban design in recent decades The most incisive texts on the work of OMA Rem Koolhaas with many articles that have never before been translated into English An overview of notions ideas and debates in architectural discourse theory and criticism from the 1970s until 2000 that remain relevant today Illustrated with more than 100 cover shoots **OMA's Kunsthal in Rotterdam** Tibor Pataky,2023-04 Opened in 1992 the Kunsthal in Rotterdam is a key design in the portfolio of Rem Koolhaas and OMA the renowned firm Koolhaas cofounded in 1975 It is part of the Museumpark a park also designed by OMA and the location of the Nederlands Architectuurinstituut NAi the Museum Boijmans Van Beuningen and the Museum of Natural History The Kunsthal s exhibition space is divided into three large exhibition halls and two smaller galleries The building also houses an auditorium and a restaurant 00This outstanding space for art is a prime destination for countless architecture fans every year and is celebrated by Tibor Pataky architect and architectural historian in this inspiring book He explains the history the programmatic background and the cultural references of the design which has been adapted several times He also places it in the context of OMA s work of the 1980s and the intellectual environment of Deconstructivism Eight captivating series of illustrations historic and new photographs plans and documents from OMA s archive and other images focus on the structure s outstanding qualities and its embedding within the park A set of new plans newly drawn for this book illustrate the highlights of OMA s design The volume is a hugely attractive tribute to one of the most significant works of post WWII architecture in Europe **Rem Koolhaas, OMA + AMO / Spaces for Prada** Rem Koolhaas,2021 Source Books in Architecture No 14 Rem Koolhaas OMA AMO Spaces for Prada is the most recent volume in the Source Books in Architecture series Among the topics discussed in the book are the long standing relationship with Prada and how the early objectives in that relationship have both maintained and shifted An underlying theme to the conversations held with students and faculty of the Knowlton School community is the topic of architect client relationships their history their problems and how they have contributed to the discipline over time Explicitly a focus of the conversation is a number of projects that OMA has

developed or completed with Prada a large number of which are installation scale environments that manifest in the form of runway shows and exhibitions The challenge of such projects is to retain a commitment to the political and cultural agenda that OMA embeds in the larger and permanent buildings Given the ephemerality and role of these environments as literal backgrounds to highlighted events the projects are ideal scenarios in which to develop an architecture that lacks the permanence of buildings while still carrying potency and contributing to larger cultural discussions involving for example event place concept product staging the crowd lighting and materiality Source Books in Architecture No 14 contains project documentation from the OMA and Prada archives transcripts from Koolhaas conversations with students at the Knowlton School at The Ohio State University and commentary and critique from architects critics and theorists   **OMA - Rem Koolhaas** ,1994   **Delirio y mas** Rem Koolhaas,2006 This extensive publication by the Spanish Architectural magazine El Croquis presents a comprehensive overview of the major building projects that Koolhaas and his OMA have created since 1996 It shows conceptual plans drawings floor plans cross sections models and photographs of the following projects Hyperbuilding Bordeaux House and Pool The Sustainable House Port of Genoa Universal Headquarters Building De Rotterdam Building Vertical City MoCA Museum of Contemporary Arts Rome UN City Schiphol City New Concept for the Schiphol Site Wenner House The Distributed House 3 USA Prada Epicenters in store Technology Prada San Francisco Epicenter Prada New York Epicenter Prada Los Angeles Epicenter Astor Place Hotel Cordoba Congress Center Flick House I II Whitney Museum Extension LACMA Los Angeles County Museum of Art Koningin Julianaplein CCTV Television Station and Headquarters and TVCC Cultural Center NATO Headquarters Deltametropool European Union and Brussels Study The McCormick Tribune Campus Center at IIT H e rmitage Museum Extension St Petersburg Quartier des Halles Urban Development Study European Central Bank Headquarters Netherlands Embassy in Berlin and the Content Exhibition
