Oman Its Renaissance:

Oman and Its Renaissance Donald Hawley,1980 **Oman & Its Renaissance** Donald Hawley,1987 **Zanzibar Was a Country** Nathaniel Mathews,2024-04-09 Zanzibar Was a Country traces the history of a Swahili speaking Arab diaspora from East Africa to Oman In Oman today whole communities in Muscat speak Swahili have recent East African roots and practice forms of sociality associated with the urban culture of the Swahili coast These Omani Zanzibaris offer the most significant contemporary example in the Gulf as well as in the wider Indian Ocean region of an Afro Arab community that maintains a living connection to Africa in a diasporic setting While they come from all over East Africa a large number are postrevolution exiles and emigr s from Zanzibar Their stories provide a framework for the broader transregional entanglements of decolonization in Africa and the Arabian Gulf Using both vernacular historiography and life histories of men and women from the community Nathaniel Mathews argues that the traumatic memories of the Zanzibar Revolution of 1964 are important to nation building on both sides of the Indian Ocean Traditional Architecture of the Arabian Gulf R. Hawker,2008-06-10 This book chronicles the florescence of architecture in the Arabian Gulf after the expulsion of the Portuguese in the early 1600 s It demonstrates how the power vacuum created by the collapse of Portuguese control over the trade routes in the Indian Ocean encouraged a growth in fortified architecture especially in Oman that radiated out to the surrounding region and was then slowly replaced by new patterns in domestic and public architecture and town planning throughout the Gulf as the trade lines were secured and the individual countries took the first steps towards the formation of today s modern nation states The book documents the buildings and crafts of this era and analyses them within the framework of the political economic and social information available through primary sources from the period in a way that is both intelligent and accessible It considers the settlements as part of a larger connected network of cities towns and villages and focuses both on how the buildings provided innovative solutions to the demanding climate and yet incorporated new decorative and functional ideas Topics are extensively and richly illustrated with colored photographs of the buildings as they are now black and white and color historic photographs from archival and museum collections line drawings and computer generated reconstructions The book is therefore attractive to a number of audiences including those who live in or travel to the Gulf as well as people with an interest in Arab and Islamic design culture and society vernacular architecture and post colonial approaches to colonial history **Oman Mineral, Mining Sector Investment and Business Guide Volume 1 Strategic Information and Regulations** IBP, Inc,2013-08 Oman Mineral Mining Sector Investment and Business Guide Strategic and Practical Information Oman Frank Clements,1994 **Sultan Qaboos and Modern Oman, 1970-2020** Abdulrahman al-Salimi,Allen James Fromherz,2022-04-27 One of the first timely accounts of both the modern Omani rebirth and its legacy over the entire reign of Sultan Qaboos 1970 2020 The book provides unique wide ranging interdisciplinary and international perspectives on modern Oman by specialists in a variety of fields from Oman Europe and North America

Oman ,2016 *Social and Gender Inequality in Oman* Khalid M. Al-Azri,2013 Looking at the social political and legal changes in Oman since 1970 this book challenges the Islamic and tribal traditional cultural norms relating to marriage divorce and women s rights which guide social and legal practice in the modern Omani state The book argues that despite the establishment of legal instruments guaranteeing equality for all citizens the fact that the state depends upon Islamic and tribal elites for its legitimacy invalidates these guarantees in practice Two particular features of the legal and cultural regulation of marriage and marital rights are focused on the perceived requirement for kafa aor equality in marriage between so called high and low socio economic status peoples is examined and the institution of talaq which grants greater rights to men than to women in appeals for divorce This book addresses highly complex subjects with great rigor in terms of empirical research and engagement with theory sociological and political as well as theological and legal It is an interesting investigation of the divisions of authority between the state Islam and tribal norms highlighting barriers to reform in both Oman and wider Islamic society and advocating the removal of such obstacles
