Rudolp Leonhard Tafel

On Enlightenment:

On Enlightenment David Stove, 2013-09-05 He advocates a conservative go slow approach to change pointing out that today's social structures are so large and complex that any widespread social reform will have innumerable unforeseen consequences For example the welfare state may diminish individual initiative The use of pesticides may increase the food supply while polluting the water supply the popularizing of university education may lead to a decline in academic standards Since government has a virtual monopoly on large scale change It follows in Stove's view that its powers must be limited in order to prevent large scale damage instead he argues that reforms when they are to be made at all must be realistic local necessary and never coercive **BOOK JACKET** [Light on Enlightenment](#) Christopher Titmuss, 1999 This lucidly written guide is a practical introduction to the Buddha's teachings Christopher Titmuss demonstrates how these teachings can affect our everyday lives drawing on the experiences of real people Each section concludes with questions to ask ourselves Suggestions for practical exercises and tasks are included **The Divine Within** Aldous Huxley, Huston Smith, 2013-07-02 A genius a writer who spent his life decrying the onward march of the Machine The New Yorker Brave New World author Aldous Huxley on enlightenment and the ultimate reality In this anthology of twenty six essays and other writings Aldous Huxley discusses the nature of God enlightenment being good and evil religion eternity and the divine Huxley consistently examined the spiritual basis of both the individual and human society always seeking to reach an authentic and clearly defined experience of the divine Featuring an introduction by renowned religious scholar Huston Smith this celebration of ultimate reality proves relevant and prophetic in addressing the spiritual hunger so many feel today [The Enlightenment's Animals](#) Nathaniel Wolloch, 2025-10-01 In *The Enlightenment's Animals* Nathaniel Wolloch takes a broad view of changing conceptions of animals in European culture during the long eighteenth century Combining discussions of intellectual history the history of science the history of historiography the history of economic thought and not least art history this book describes how animals were discussed and conceived in different intellectual and artistic contexts underwent a dramatic shift during this period While in the seventeenth century and the first half of the eighteenth century the main focus was on the sensory and cognitive characteristics of animals during the late Enlightenment a new outlook emerged emphasizing their conception as economic resources Focusing particularly on seventeenth century Dutch culture and on the Scottish Enlightenment Wolloch discusses developments in other countries as well presenting a new look at a topic of increasing importance in modern scholarship [Eihei Dogen: Mystical Realist](#) Hee-Jin Kim, 2012-06-25 Eihei Dogen the founder of the Japanese branch of the Soto Zen Buddhist school is considered one of the world's most remarkable religious philosophers Eihei Dogen *Mystical Realist* is a comprehensive introduction to the genius of this brilliant thinker This thirteenth century figure has much to teach us all and the questions that drove him have always been at the heart of Buddhist practice At the age of seven in 1207 Dogen lost his mother who at her death earnestly asked him to become a monastic to seek the truth of Buddhism We are told that in

the midst of profound grief Dogen experienced the impermanence of all things as he watched the incense smoke ascending at his mother's funeral service This left an indelible impression upon the young Dogen later he would emphasize time and again the intimate relationship between the desire for enlightenment and the awareness of impermanence His way of life would not be a sentimental flight from but a compassionate understanding of the intolerable reality of existence At age 13 Dogen received ordination at Mt Hiei And yet a question arose As I study both the exoteric and the esoteric schools of Buddhism they maintain that human beings are endowed with Dharma nature by birth If this is the case why did the buddhas of all ages undoubtedly in possession of enlightenment find it necessary to seek enlightenment and engage in spiritual practice When it became clear that no one on Mt Hiei could give a satisfactory answer to this spiritual problem he sought elsewhere eventually making the treacherous journey to China This was the true beginning of a life of relentless questioning practice and teaching an immensely inspiring contribution to the Buddhadharma As you might imagine a book as ambitious as Eihei Dogen Mystical Realist has to be both academically rigorous and eminently readable to succeed Professor Hee Jim Kim's work is indeed both

book also includes newly translated and newly written interpretive essays by leading historians and philosophers which examine the origins of eighteenth century debate on Enlightenment and explore its significance for the present In recent years critics from across the political and philosophical spectrum have condemned the Enlightenment for its complicity with any number of present day social and cultural maladies It has rarely been noticed however that at the end of the Enlightenment German thinkers had already begun a scrutiny of their age so wide ranging that there are few subsequent criticisms that had not been considered by the close of the eighteenth century Among the concerns these essays address are the importance of freedom of expression the relationship between faith and reason and the responsibility of the Enlightenment for revolutions Included are translations of works by such well known figures as Immanuel Kant Moses Mendelssohn Johann Gottlieb Fichte and Johann Georg Hamann as well as essays by thinkers whose work is virtually unknown to American readers These eighteenth century texts are set against interpretive essays by such major twentieth century figures as Max Horkheimer J rgen Habermas and Michel Foucault
