Getting Real about Getting Older Linda K. Stroh PhD, Karen K. Brees PhD, 2018-11-06 The first book to open up a real conversation about aging. What has the experience of getting older felt like for you? It seems that life's milestones pass by in a flash: graduating from school, landing your first job, getting married, having kids. Most people look forward to these events and have some expectations about what each life milestone will be like. But what about when you get older? How can you continue to live fully in your sixties, seventies, and beyond? Linda K. Stroh and Karen K. Brees asked nearly one thousand older people about the challenges and joys of growing older and compiled their collective wisdom into this must-have book focusing on important topics such as: Changing self identities, Friendships and romantic relationships, Health, fitness and self image, Loss, Relationships with adult children, grandchildren and siblings, And much more. Full of advice and stories from a wide variety of older people, *Getting Real about Getting Older* examines love, loss, and changing identities and will help you take control of your concerns about aging and experience wisdom and joy as an older adult.

Ageless Andrew Steele, 2021-03-23 A fascinating look at how scientists are working to help doctors treat the aging process itself, helping us all to lead longer, healthier lives. Sanjay Gupta MD Aging, not cancer, not heart disease, is the underlying cause of most human death and suffering. The same cascade of biological changes that renders us wrinkled and gray also opens the door to dementia and disease. We work furiously to conquer each individual disease, but we never think to ask: Is aging itself necessary? Nature tells us it is not: there are tortoises and salamanders who are spry into old age and whose risk of dying is the same no matter how old they are. A phenomenon known as biological immortality. In *Ageless*, Andrew Steele charts the astounding progress science has made in recent years to secure the same for humans to help us become old without getting frail, to live longer without ill health or disease.
